

Tempered Glass Lens and Screen Protector DJI OSMO Pocket 3

Puluz · EAN 5905316149304

Machine translation from Polski. In case of doubt the manufacturer's original document prevails.

User Manual

PULUZ Protective Glass for Lens and Screen of DJI OSMO Pocket 3

Description

The PULUZ protective glass for the lens and screen features a hardness level of 9H, making it scratch-resistant. Additionally, it does not collect fingerprints and is waterproof, while installation using electrostatic adsorption eliminates the possibility of bubbles forming under its surface. With a light transmission rate of 99%, it is an excellent choice for both hobbyists and professionals.

Intended Use

For safety and certification reasons, the device must not be modified or altered in any way. Using the product for purposes other than those described may result in damage to the product. Furthermore, improper use may pose hazards. Please read the user manual carefully and keep it for future reference. It is essential to read and follow the safety instructions contained in the manual.

1. The product is not a toy. Keep it out of reach of children and pets.
2. Protect the product from extreme temperatures, direct sunlight, strong vibrations, high humidity, moisture, flammable gases, fumes, and solvents.
3. Do not expose the product to mechanical loads.
4. If safe operation is no longer possible (the product is damaged, not functioning correctly), discontinue use and secure the product against further use.
5. Handle the product with care. Shocks, impacts, or dropping the product may cause damage.
6. If there are any doubts regarding the operation, safety, or connection of the product, consult a qualified professional.
7. If you have any questions that are not answered in this manual, please contact our customer service office (email: hurt@innpro.pl, website: <https://innpro.pl/>) or another specialist.
