## Waterproof Housing Puluz for Insta360 X3 Camera

### Description

The Puluz waterproof housing allows you to shoot underwater footage with the Insta360 X3 camera at depths of up to 50 meters! It is made of high light transmission plastic - the lens material is PMMA with a transmission rate of 95%, which reaches 98% after being coated with anti-reflective AR film. Thanks to the unique design of the housing, all dead zones have been eliminated.

### Safety Instructions

You must read and follow the safety instructions contained in this manual.

1. The product is not a toy. Keep it out of reach of children and pets.
2. Protect the product from extreme temperatures, direct sunlight, strong vibrations, high humidity, moisture, flammable gases, vapors, and solvents.
3. Do not expose the product to mechanical loads.
4. If safe operation is no longer possible (the product is damaged, not functioning correctly), discontinue use and secure the product against reuse.
5. Handle the product with care. Shocks, impacts, or dropping the product may cause damage.
6. If there are any doubts regarding the operation, safety, or connection of the product, consult a qualified professional.
7. If you have any questions that are not answered in this manual, please contact our customer service office (email: [hurt@innpro.pl](mailto:hurt@innpro.pl), website: <https://innpro.pl/>) or another specialist.
