Puluz

PULUZ 80 cm Light Tent (PU5083EU)

Description

1. The body is made of high-quality 600D Oxford fabric, which is wrinkle-resistant, shrink-resistant, has strong abrasion resistance, and long durability; The inner reflective layer made of aluminum foil provides even lighting and eliminates shadows and reflections;
2. The frame is made of 12 fiberglass support rods, which are strong and durable;
3. Sufficiently large space suitable for photographing objects smaller than 65 x 65 x 65 cm, such as bags, children's clothing, green plants, etc.;
4. High-quality lamp panels, high-quality LED lamp beads, high brightness, low energy consumption, no flicker, color rendering index greater than or equal to 95, can well restore the color of the object itself;
5. The power of the three LED light panels can reach 90 W, and the brightness can be dimmed continuously, which can provide sufficient brightness for supplementary light during shooting; the light panels can be moved and used for lighting as needed, making it easier to shoot commercial hits with a strong three-dimensional effect;
6. Various windows and shooting angles: Top window for overhead shooting, fully open front for shooting, front half-small window for shooting, front small window for shooting;
7. Three PVC backgrounds that can be selected according to your needs. The background is wrinkle-resistant, waterproof, and easy to clean;
8. Easy to assemble and disassemble, equipped with a carrying bag, can be transported anywhere.

Intended Use

The device is intended for indoor use only. Using it outdoors is not allowed. It is essential to avoid contact with moisture, for example, in bathrooms, etc. For safety and certification reasons, the device must not be modified or altered in any way. If the product is used for purposes other than those described, it may be damaged. Additionally, improper use may pose hazards. Read the user manual carefully and keep it for future reference.

Safety Tips for Use

Read and follow the safety instructions contained in the manual.

1. The product is not a toy. Keep it out of reach of children and pets.
2. Protect the product from extreme temperatures, direct sunlight, strong vibrations, high humidity, moisture, flammable gases, vapors, and solvents.
3. Do not expose the product to mechanical loads.
4. If safe operation is no longer possible (the product is damaged, not functioning properly), stop using it and secure the product against reuse.
5. Handle the product with care. Shocks, impacts, or dropping the product may cause damage.
6. If there are any doubts regarding the operation, safety, or connection of the product, consult a qualified professional.
7. If there are any questions not answered in this manual, please contact our customer service office (email: hurt@innpro.pl, website: <https://innpro.pl/>) or another specialist.

Specifications

Model: PU5083EU

Material: 600D Oxford Fabric + Aluminum + Fiberglass

Power Supply: 100-250 V 47-63 Hz

Output: 18 V 1.66 A x 3

Output Current: 5 A

Number of LEDs: 78 x 3

Brightness: 14,000 lm

Color Temperature: 5500K

CRI: ≥ 95

Dimensions: 80 x 80 x 80 cm

Contents
