User Manual

Brand: Puluz

Ring Light Type C

Description

The advanced features of this lamp include the ability to disassemble and mount on a tripod, as well as full 360-degree rotation adjustment. Built with 160 energy-efficient LEDs, it boasts excellent heat resistance and high color rendering, enhancing the natural tone of skin in portraits. Choose from 3 lighting modes (warm, natural, and cool) and adjust brightness without the need for additional filters. With a Type-C port, it allows easy connection to various devices such as computers, laptops, or mobile chargers, ensuring continuous use anywhere. Its lightweight and portable design makes it an ideal companion for travel or outdoor work. With an adjustable phone clamp accommodating widths from 6 to 8.5 cm, it is perfect for a wide range of applications, including outdoor photography, interior lighting, portraits, fashion shoots, and video recording. Thanks to the automatic shut-off feature after one minute of activation, it provides additional user convenience. This LED ring light is an indispensable tool for creating stunning visuals in any environment.

Intended Use

It is intended for indoor use only. Using the device outdoors is not permitted. Contact with moisture, e.g., in bathrooms, etc., must be unconditionally avoided. For safety and certification reasons, the device must not be modified or altered in any way. If the product is used for purposes other than those described, it may be damaged. Furthermore, improper use may pose hazards. Read the user manual carefully and keep it for future reference.

Safety Guidelines

Read and follow the safety instructions contained in the manual.

1. The product is not a toy. Keep it out of reach of children and pets.
2. Protect the product from extreme temperatures, direct sunlight, strong vibrations, high humidity, moisture, flammable gases, vapors, and solvents.
3. Do not expose the product to mechanical loads.
4. If safe operation is no longer possible (the product is damaged, not functioning properly),

discontinue use and secure the product against reuse.

5. Handle the product with care. Shocks, impacts, or dropping the product may cause damage.

6. If there are any doubts regarding the operation, safety, or connection of the product, consult a qualified professional.

7. If there are any questions not answered in this manual, please contact our customer service office (email: hurt@innpro.pl, website: <https://innpro.pl/>) or another specialist.

Specifications

Number of lights: 160 pcs.

Lamp light model: 2835

Lamp brightness: 24-26 lm

Color temperature of white light: 6500K

Warm white color temperature: 3200K

Power: 1.8W-20W

Voltage: PD, QC, FPC, AFC fast adaptive charging 9V

Dimming range: 1%-100%

Housing material: ABS, acrylic light cover

Dimensions: outer diameter 300 mm, inner diameter 240 mm

Power supply: Power adapter with Type-C port

Cable length: 2 m

Indications: Ra over 90

Manufacturer: Shenzhen SUNSKY Technology Limited

Address: 8/F, No.614 Building, Bagua 1st Road, Futian District, Shenzhen

ENVIRONMENTAL PROTECTION

Used electronic equipment marked in accordance with the European Union directive must not be disposed of together with other municipal waste. It is subject to selective collection and recycling at designated points. By ensuring its proper disposal, you prevent potential negative consequences for the natural environment and human health. The collection system for used equipment complies with locally applicable environmental protection regulations regarding waste disposal. Detailed information on this can be obtained from the municipal office, waste management facility, or the store where the product was purchased. The product meets the requirements of the so-called New Approach directives of the European Union (EU) concerning safety, health protection, and environmental protection, identifying hazards that should be detected and eliminated.
