Machine translation from Polski. In case of doubt the manufacturer's original document prevails.

Ring light / LED tripod
Puluz 20cm with phone holder
PKT3073B

User manual

LED ring light with phone holder

The lamp is made of energy-efficient LED beads that perfectly reflect natural colors and enhance skin tone in photographs. With 3 color options and brightness adjustment, you can quickly and easily customize the photo effect according to your preferences, without the need for additional color filters. Moreover, thanks to the heat dissipation feature, you don't have to worry about the lamp housing overheating.

Functional tripod

The tripod mount is entirely made of plastic, and the soft, rubber feet will not slip on smooth surfaces. The standard ¼-inch thread allows you to attach the mount to a camera, gimbal stabilizer, or monopod. The tripod head rotates 360 degrees so you can set the most favorable angle for yourself.

Package contents

- LED ring light x1
- Tripod mount x1
- Tripod head x1
- USB cable x1
- Phone clamp x1

Specifications

- Manufacturer: Puluz
- Model: PKT3073B
- Bead model: 2835
- Luminous flux: 24-26 lm
- Color temperature of white light: 6500 K
- Color temperature of warm white: 3200 K
- Power: 0.3-9.3 W
- Voltage: 5 V
- CRI: >90
- Dimming range: 1-100%
- Material: ABS + acrylic lamp cover
- Port: USB
- Cable length: 2 m

Environmental protection

Used electronic equipment marked in accordance with the European Union directive must not be disposed of with other municipal waste. It is subject to selective collection and recycling at designated points. By ensuring its proper disposal, you prevent potential negative consequences for the natural environment and human health. The system for collecting used equipment complies with locally applicable environmental protection regulations regarding waste disposal. Detailed information on this topic can be obtained from the municipal office, waste management facility, or the store where the product was purchased.

 The product meets the requirements of the so-called New Approach directives of the European Union (EU) regarding safety, health protection, and environmental protection, which identify hazards that should be detected and eliminated.
