
LED lamp Puluz for the camera 860 lumens

Puluz · EAN 5907489605328

Machine translation from Polski. In case of doubt the manufacturer's original document prevails.

User manual

Puluz LED Lamp for Camera PU529B

Description

The lamp generates natural and soft white light with a temperature of 6500K. The PU529B is powered by two low-energy AA batteries, which must be purchased separately. With the 1/4-inch thread, you can also attach a mount for even greater user comfort. You can also connect additional lighting to the device for better photo and video effects.

Intended Use

For safety and certification reasons, the product must not be modified or altered in any way. Using the product for purposes other than those described may result in damage to the product. Additionally, improper use may pose hazards. Read the user manual carefully and keep it for future reference. It is essential to read and follow the safety instructions contained in the manual.

1. The product is not a toy. Keep it out of reach of children and pets.
2. Protect the product from extreme temperatures, direct sunlight, strong vibrations, high humidity, moisture, flammable gases, vapors, and solvents.
3. Do not expose the product to mechanical loads.
4. If safe operation is no longer possible (the product is damaged, not functioning correctly), discontinue use and secure the product against further use.
5. Handle the product with care. Shocks, impacts, or dropping the product may cause damage.
6. If there are any doubts regarding operation or safety, consult a qualified professional.
7. If you have any questions not answered in this manual, please contact our customer service office (email: hurt@innpro.pl, website: <https://innpro.pl/>) or another specialist.
