Puluz · EAN 5907489605540

Machine translation from Polski. In case of doubt the manufacturer's original manual prevails.

Puluz Softbox LED Studio Kit

50x70cm, stand, 4 LED bulbs

PU5071EU

User Manual

PU5071EU is suitable for taking studio portraits, photographing still life, children, etc. The carrying bag allows for safe storage of the kit contents.

Softbox

The kit includes a softbox measuring 50 x 70 cm made of high-quality fabric with a silver lining along with a white nylon screen that softens harsh light and eliminates shadows. Additionally, the softbox can be set up and taken down quickly and easily, and its storage will also not be problematic.

Height Adjustment

The stand is made of the highest quality aluminum with a $\frac{1}{4}$ screw mount on top, making it durable. The height can be adjusted from 54 cm to 2 m, providing freedom of use. Furthermore, the angle of the Softbox can be adjusted within a range of 270°, ensuring appropriate lighting from multiple angles. This allows everyone to customize it to their photography needs.

Energy Saving

The kit also includes four 20W LED bulbs with a standard E27 socket. The bulbs are energy-efficient, so you don't have to worry about higher electricity bills. The 5700K color temperature provides clean, white, and uniform daylight, ensuring excellent lighting.

Kit Contents:

Stand

LED bulb E27 x4

Softbox 50 x 70 cm with bulb socket

Carrying bag

Specification:

Manufacturer: Puluz

Environmental Protection

Used electronic equipment marked in accordance with the European Union directive must not be placed together with other municipal waste. It is subject to selective collection and recycling at designated points. By ensuring its proper disposal, you prevent potential negative consequences for the natural environment and human health. The system for collecting used equipment complies with locally applicable environmental protection regulations regarding waste disposal. Detailed information on this topic can be obtained from the municipal office, waste management facility, or the store where the product was purchased.

The product meets the requirements of the so-called New Approach directives of the European Union (EU) concerning issues related to user safety, health protection, and environmental protection, specifying hazards that should be detected and eliminated. This document is a translation of the original user manual created by the manufacturer. Detailed information about the distributor/manufacturer warranty conditions is available on the website <https://serwis.innpro.pl/gwarancja>

The product should be regularly maintained (cleaned) by the user or through specialized service points at the user's cost and responsibility. In the absence of information about necessary periodic or service maintenance actions in the user manual, the user should regularly, at least once a week, assess any deviation of the physical condition of the product from that of a physically new product. If any deviation is detected or identified, urgent maintenance (cleaning) or service steps should be taken. Failure to properly maintain (clean) and respond upon detecting a state of deviation may lead to permanent damage to the product. The guarantor is not responsible for damages resulting from neglect.
