User manual

RGB LED lamp for camera Puluz PU560B

Description

Puluz is a brand ideal for the discerning eye. The lamp operates for up to 10 hours at low output power, making it suitable for long hours of photography, and its magnetic design facilitates work. With 13 types of light simulations and a color temperature ranging from 2500K to 9000K, it enhances every photo and creates the desired atmosphere.

Intended use

For safety and certification reasons, the product must not be modified or altered in any way. Using the product for purposes other than those described may result in damage to the product. Furthermore, improper use may pose hazards. Please read the user manual carefully and keep it for future reference. It is important to read and follow the safety instructions contained in the manual.

1. The product is not a toy. Keep it out of reach of children and pets.
2. Protect the product from extreme temperatures, direct sunlight, strong vibrations, high humidity, moisture, flammable gases, vapors, and solvents.
3. Do not expose the product to mechanical stress.
4. If safe operation is no longer possible (the product is damaged, not functioning properly), discontinue use and secure the product against reuse.
5. Handle the product with care. Shocks, impacts, or dropping the product may cause damage.
6. If there are any doubts regarding operation or safety, consult a qualified professional.
7. If you have any questions not answered in this manual, please contact our customer service office (email: hurt@innpro.pl, website: <https://innpro.pl/>) or another specialist.

Specifications

Model: PU560B

Material: Magnet

Dimensions: 6.6 x 3 x 8cm

Power: 6W

Voltage: 3.7V

Interface: TYPE-C

Manufacturer:

Shenzhen SUNSKY Technology Limited

8/F, No.614 Building, Bagua 1st Road, Futian District, Shenzhen

Responsible entity in the EU:

INNPRO Robert Błędowski sp. z o. o.

Rudzka 65C, 44-200 Rybnik, Poland

Environmental protection

Waste electrical and electronic equipment marked in accordance with the European Union directive must not be placed together with other municipal waste. It is subject to selective collection and recycling at designated points. By ensuring its proper disposal, you prevent potential negative consequences for the natural environment and human health. The system for collecting waste equipment complies with locally applicable environmental protection regulations regarding waste disposal. Detailed information on this can be obtained from the municipal office, waste management facility, or the store where the product was purchased. The product meets the requirements of the so-called New Approach directives of the European Union (EU) concerning issues related to safe use, health protection, and environmental protection, identifying hazards that should be detected and eliminated.

Battery information:

Category: Portable battery

Type: Lithium-ion battery (Li-ion)

Net weight: 0.0442

Capacity: 2600 mAh

Exceeded permissible content of cadmium (0.002%) or lead (0.004%): no
