Clutch Pedal for Gaming PXN Vector X

User Manual

Description

The PXN Vector X PD LP C clutch pedal is an additional module designed to expand the PXN Vector X Pedals set to a full configuration of three pedals. It is equipped with a precise Load Cell sensor with a force of 30 kg, a two-stage mechanism replicating the clutch engagement point, and a progressive three-phase operating characteristic. The adjustable pressure force ranging from 0 to 30 kg allows you to tailor the pedal's operation to your preferences, while the 24-bit resolution ensures exceptionally accurate readings of every movement. The construction made of carbon fiber, stainless steel 304, and aluminum 6061 guarantees durability and full compatibility with the PXN Vector X ecosystem on PC.

Intended Use

For safety and certification reasons, the product must not be modified or altered in any way. Using the product for purposes other than those described may result in damage to the product. Furthermore, improper use may pose hazards. Please read the user manual carefully and keep it for future reference. You must read and follow the safety instructions contained in the manual. The product is not a toy. Keep it out of reach of children and pets. Protect the product from extreme temperatures, direct sunlight, strong vibrations, high humidity, moisture, flammable gases, vapors, and solvents. Do not expose the product to mechanical loads. If safe operation is no longer possible (the product is damaged, not functioning correctly), discontinue use and secure the product against reuse. Handle the product with care. Shocks, impacts, or dropping the product may cause damage. If there are any doubts regarding operation or safety, consult a qualified professional. If you have any questions not answered in this manual, please contact our customer service office (email: hurt@innpro.pl, website: <https://innpro.pl/>) or another specialist.

Specification:

Manufacturer: PXN

Model: PD LP C

Product Type: additional clutch pedal for sim racing

Compatibility: PXN Vector X Pedals

Platform: PC

Sensor Type: Load Cell

Maximum Sensor Force: 30 kg

Pressure Force Adjustment: 0-30 kg

Resolution: 24-bit (16,777,216 signal levels)

Operating Mechanism: two-stage connection mechanism

Pressure Characteristic: progressive, three-phase work curve

Materials: carbon fiber, stainless steel 304, aluminum 6061

Product Dimensions: approx. 74 × 198 × 253 mm

Weight: approx. 1450 g

Application: sim racing, manual transmission, precise starts, gear shifting, driving training

Environmental Protection

Used electronic equipment marked in accordance with the European Union directive must not be disposed of together with other municipal waste. It is subject to selective collection and recycling at designated points. By ensuring its proper disposal, you prevent potential negative consequences for the natural environment and human health. The system for collecting used equipment complies with locally applicable environmental protection regulations regarding waste disposal. Detailed information on this can be obtained from the municipal office, cleaning facility, or the store where the product was purchased. The

product meets the requirements of the so-called New Approach directives of the European Union (EU) concerning issues related to user safety, health protection, and environmental protection, identifying hazards that should be detected and eliminated. This document is a translation of the original user manual created by the manufacturer. Detailed information on the distributor/manufacturer's warranty conditions is available on the website <https://serwis.innpro.pl/gwarancja>.

The product should be regularly maintained (cleaned) by the user or through specialized service points at the user's cost and responsibility. In the absence of information regarding necessary periodic or service maintenance actions in the user manual, the user should regularly, at least once a week, assess any deviation of the product's physical condition from that of a physically new product. If any deviation is detected or observed, urgent maintenance (cleaning) or service actions should be taken.

Lack of proper maintenance (cleaning) and response upon detecting an abnormal condition may lead to permanent damage to the product. The warranty does not cover damages resulting from neglect.
