User manual

Accessories for the RainPoint irrigation system

Description

Complete your RainPoint irrigation set with a set of accessories that will enable precise and effective watering of even more plants. The set includes flexible hoses of various diameters, mounting spikes, drip emitters, T and cross connectors, and a filter to protect against contaminants. With these components, you can easily expand your irrigation system to fit the layout of beds, pots, and patches in your garden. This solution is ideal when the standard set is sufficient for 10-15 plants, but you need to cover a larger area with irrigation.

Intended use

For safety and certification reasons, the product must not be modified or altered in any way. Using the product for purposes other than those described may result in damage to the product. Furthermore, improper use may pose hazards. Please read the user manual carefully and keep it for future reference. It is essential to read and follow the safety instructions contained in the manual.

1. The product is not a toy. Keep it out of reach of children and pets.
2. Protect the product from extreme temperatures, direct sunlight, strong vibrations, high humidity, moisture, flammable gases, vapors, and solvents.
3. Do not expose the product to mechanical loads.
4. If safe operation is no longer possible (the product is damaged, not functioning correctly), stop using it and secure the product against further use.
5. Handle the product with care. Shocks, impacts, or dropping the product may cause damage.
6. If there are any doubts regarding operation or safety, consult a qualified professional.
7. If you have any questions that are not answered in this manual, please contact our customer service (email: hurt@innpro.pl, website: <https://innpro.pl/>) or another specialist.
