

2-WAY HOSE SPLITTER
USER MANUAL

Model NO.: DZ01

PRODUCT OVERVIEW

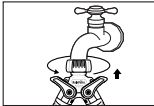

The water hose splitter is designed to efficiently distribute water from a single source to multiple hoses or outlets, making it ideal for gardens, lawns, and other irrigation needs.

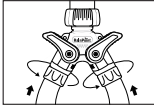

SPECIFICATION

ITEMS	SPECIFICATION
Water Inlet	NH (US) for 3/4" faucets BSP(EU) for 3/4" or 1" faucets
Water Outlet	For 3/4" standard hoses
Working Water Pressure	0-11 bar (0-160 psi)
Water Flow Rate	12gal/min (45.5L/min)
Working Temperature	41°F-140°F (5°C-60°C)
Material	ABS Inlet Coverage+Brass Inlet+Zinc Alloy Body/Outlet+TPR Body Coverage

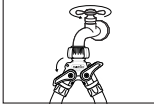

HOW TO USE

Step 1:
Align the inlet of the splitter with the faucet threads and gently screw in to secure the splitter, making sure the threads fit tightly;

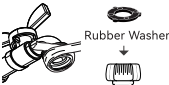

Step 2:
Align both water hoses with the two outlets of the splitter and screw in gently to ensure a tight fit of the threads;

Step 3:
Turn on the faucet, then turn down the valve switch of the splitter to open the valve of the splitter. The valve switch on one side controls the water flow on and off on that side.

TIP:

If there is a leak after connecting the splitter, check if the threads of the splitter are properly aligned and tightened with the threads of the faucet. If they are aligned, wrap some teflon tapes on the threads of the faucet and add a rubber washer at the splitter's inlet before reconnecting to the faucet.

NOTE:

- Please do not use tools, only install the splitter by hand.
- When freezing temperatures are expected, the splitter should be removed from the faucet and stored indoors to prevent potential freeze damage.

WARRANTY POLICY

RainPoint provides a 1-year warranty against manufacturing defects in materials and workmanship from the date of purchase.
During the warranty period, we'll replace free of charge the product found to be defective under reasonable use and service as determined solely by RainPoint.
