RayNeo HDMI for glasses and
charging adapter

* Actual resolution depends on the specifications
of the connected external device

User Manual

Thank you for choosing RayNeo. Before use, please read the user manual. If you have any questions, please contact us at service@rayneo.com. This document is a translation of the original user manual created by the manufacturer. Detailed information about the distributor/manufacturer warranty conditions is available on the website <https://serwis.innpro.pl/gwarancja>.

The product should be regularly maintained (cleaned) at your own expense or through specialized service points. In the absence of information about necessary periodic maintenance or service actions in the user manual, the physical condition of the product should be assessed regularly, at least once a week, to identify any differences from a physically new product. If any differences are detected or identified, urgent maintenance (cleaning) or service steps should be taken. Failure to properly maintain (clean) and respond upon detecting a state of difference may lead to permanent damage to the product. The manufacturer is not responsible for damages resulting from neglect.

Warnings and Safety Information

All information regarding the use of the products can be found in the attached user manual. Before starting to use the products, familiarize yourself with its content and follow the manufacturer's recommendations. Also, review the following information before use:

Usage Warnings

Risk of device damage:

- AR glasses and adapters should only be used according to their intended purpose and the instructions contained in the user manual.
- Avoid exposing devices to extreme temperatures, moisture, and direct sunlight to prevent

damage to electronic components.

- Do not connect adapters to incompatible devices to avoid the risk of damage.

User hazards:

- Do not use AR glasses while driving, operating machinery, or in other situations requiring full attention – this may lead to accidents.
- Before prolonged use, ensure that the glasses fit well and do not cause discomfort to avoid eye strain or headaches.
- Avoid looking directly at intense AR display lights for extended periods to protect your eyesight.

Power and connection risks:

- Adapters should only be connected to recommended power sources and cables. Do not use damaged wires or chargers.
- Before connecting the adapter, ensure that the power socket is clean and free from contaminants.

Information on Proper Use

Preparation and Setup:

- Before first use of the AR glasses, install the necessary software or applications indicated by the manufacturer.
- If the glasses require connection to an adapter, ensure that the adapter is properly connected to a compatible device (e.g., computer, smartphone, or console).
- Adjust the AR glasses to your needs using the available adjustments.

Safe Use:

- Take regular breaks during use to avoid overloading your eyesight and nervous system.
- Avoid using devices during intense movement to prevent disorientation or loss of balance.

Maintenance:

- After each use, clean the glasses with a soft, dry cloth to remove fingerprints and dust. For adapters, use a dry cloth to clean the ports and casing.

Additional Precautions

- Protection of displays and lenses: Regularly check that the lenses and displays are clean and free from scratches to ensure the highest image quality.
- Adapters: If you notice any issues with the adapter's operation (e.g., overheating, intermittent connection), immediately disconnect it from the power source and contact the manufacturer's service.
- Storage: Store glasses and adapters in a dry place, in the original case or protective cover, to prevent damage.

Compliance Statement

The AR glasses and adapters have been designed in accordance with the safety requirements specified in Regulation (EU) 2023/988. They meet the requirements for electromagnetic compatibility (EMC), electrical safety, and user ergonomics.

Environmental Protection

Waste electrical and electronic equipment marked in accordance with the European Union directive must not be placed together with other municipal waste. It is subject to selective collection and recycling at designated points. By ensuring its proper disposal, you prevent potential negative consequences for the natural environment and human health.

The waste equipment collection system complies with locally applicable environmental protection regulations regarding waste disposal. Detailed information on this topic can be obtained from the municipal office, waste management facility, or the store where the product was purchased. The product meets the requirements of the so-called New Approach directives of the European Union (EU) concerning safety, health protection, and environmental protection, specifying hazards that should be detected and eliminated.
