Machine translation from Polski. In case of doubt the manufacturer's original document prevails.

Intelligent Laser Toy for Dogs / Cats Rojeco RWJ-05

User Manual

Description

Avoid contact with moisture unconditionally, e.g., in the bathroom, etc. For safety and certification reasons, the device must not be modified or altered in any way. Using the product for purposes other than described may damage the product. Additionally, improper use may pose hazards. Read the user manual carefully and keep it for future reference.

Safety Instructions

Read and follow the safety instructions contained in the manual.

1. The product is not a toy. Keep it out of reach of children and pets.
2. Protect the product from extreme temperatures, direct sunlight, strong vibrations, high humidity, moisture, flammable gases, fumes, and solvents.
3. Do not expose the product to mechanical loads.
4. If safe operation is no longer possible (the product is damaged, not functioning properly), discontinue use and secure the product against further use.
5. Handle the product with care. Shocks, impacts, or dropping the product may cause damage.
6. If there are any doubts regarding the operation, safety, or connection of the product, consult a qualified professional.
7. If there are any questions not answered in this manual, please contact our customer service office or another specialist.

Irregular 360° rotation providing entertainment for pets all day

Built-in intelligent chip controlling the program, automatic rotation after selecting the mode.

The unpredictable position of the laser attracts the cat's attention and keeps cats entertained all day without the owner.

3 modes, switch with one click

Mode I: Automatically turns off after 10 minutes

Fast mode/slow mode, switch with one click

Mode II: Starts and runs for 12 hours, automatically lures pets for 10 minutes every 2 hours; automatic shutdown after 12 hours

Mode M: Manual mode

(Automatically turns off after 20 minutes)

The product uses high-performance energy-saving chips.

It uses 4*AA batteries (not included).

Safety Instructions

You must read and follow the safety instructions contained in the manual regarding Power Supply Methods:

1. The product is not a toy. Keep it out of reach of children and pets.
2. Protect the product from extreme temperatures, direct sunlight, strong vibrations, high humidity, moisture, flammable gases, vapors, and solvents. The product is made of environmentally friendly ABS material.
3. Do not expose the product to mechanical loads.
4. If safe operation is no longer possible (the product is damaged, not functioning properly), discontinue use and secure the product against reuse.
5. Handle the product with care. Shocks, impacts, or dropping the product may cause damage.
6. If there are any doubts regarding the operation, safety, or connection of the product, consult a qualified professional.
7. If you have any questions that are not answered in this manual, please contact our customer service office or another specialist.

Warnings and Safety Information

All information regarding the use of the product can be found in the user manual. Before you start using it, familiarize yourself with its content and follow the instructions provided. Before use, also review the following information:

Usage Warnings

Risk of product damage:

- The product should be used only for its intended purpose, as described in the user manual.
- Do not leave the pet unattended while using the toy.
- Regularly check the condition of the product. In case of visible damage (e.g., cracks, broken pieces), discontinue use to avoid the risk of choking or injury.

Hazard to pets:

- Toys must be suitable for the size and strength of the pet. Using toys that are too small may pose a swallowing risk.
- Avoid giving the toy to a pet that tends to chew and destroy items if the toy is not designed for heavy chewing.
- Interactive toys with electronic components (e.g., lasers, interactive balls) should be used in moderation to avoid overloading the pet physically or mentally.

Hazard to children:

- The product is intended solely for pets and is not a toy for children. Do not allow children to use the toy without adult supervision, especially during playtime with the pet.
- When a child is playing with a pet, ensure that the child understands how to use the toy safely to avoid accidental choking on small parts or other injuries.
- Keep toys containing small parts or batteries out of reach of children to prevent the risk of swallowing or accidental damage.

Risk associated with electronic components:

- For toys with built-in batteries, use only original charging accessories.
- Do not leave the toy unattended while charging.
- Avoid contact of electronic devices with water unless they are marked as waterproof.

Information on Proper Use

Recommendations for use:

- Always choose a toy appropriate for the size and temperament of the pet.
- Before first use, familiarize yourself with the user manual. If the toy requires assembly, ensure it has been assembled correctly.
- For electronic toys, ensure that the battery is fully charged before starting to use it.

Maintenance and Storage:

- Toys should be stored in a dry and clean place, free from moisture and extreme temperatures (recommended range: from 0°C to 40°C).
- Regularly clean the toys using a damp cloth and mild detergent. Do not use chemicals or sharp tools.

Battery Safety:

- If the toy has replaceable batteries, use only batteries recommended by the manufacturer.
- Dispose of used batteries in accordance with local environmental protection regulations.

Additional Precautions

Adjustment to the pet:

- Observe your pet's reaction to the toy. If the pet shows signs of anxiety or excessive excitement, discontinue use of the product.
- Do not force the pet to use the toy if it is not interested in it.

Damage and Service:

- For mechanical and electronic toys, all repairs should be carried out only at authorized service points.
- Do not make any modifications to the toy yourself, as this may affect safety during use.

Declaration of Conformity

The products have been designed in accordance with the safety requirements specified in Regulation (EU) 2023/988 and meet the relevant technical standards, including those concerning the safety of materials and moving mechanisms. Environmental Protection Used electronic equipment marked in accordance with the European Union directive must not be placed together with other municipal waste. It is subject to selective collection and recycling at designated points. By ensuring its proper disposal, you prevent potential negative consequences for the natural environment and human health. The system for collecting used equipment complies with locally applicable environmental protection regulations regarding waste disposal. Detailed information on this can be obtained from the municipal office, waste management facility, or the store where the product was purchased. The product meets the requirements of the so-called New Approach directives of the European Union (EU) concerning issues related to user safety, health protection, and environmental protection, defining hazards that should be detected and eliminated. This document is a translation of the original user manual created by the manufacturer. Detailed information about the distributor/manufacturer warranty conditions is available on the website <https://serwis.innpro.pl/gwarancja>

The product should be regularly maintained (cleaned) by the user or by specialized service points at the user's cost and responsibility. In the absence of information about necessary periodic or service maintenance actions in the user manual, the user should regularly, at least once a week, assess the physical condition of the product against that of a physically new product. If any deviation is detected or noted, urgent maintenance (cleaning) or service steps should be taken. Failure to properly maintain (clean) and respond upon detecting a state of deviation may lead to permanent damage to the product. The guarantor is not responsible for damages resulting from negligence.
