

Filters for fountain/ drinker 3.2L/2L Rojeco 4 pcs
Instruction manual
Brand: Rojeco

Description:

Rojeco fountain filters ensure that your pet has constant access to clean water. Thanks to a double filtration system, they remove dirt, hair, food residues and heavy metals, taking care of your pet's health and well-being. Regular replacement every 2-4 weeks maintains optimum water quality and encourages your pet to drink more often and hydrate properly.

Precautions:

Warnings and safety information

All information regarding the use of the product can be found in the user manual. Before using it, read it and follow the instructions contained therein.

Also read the following information before use:

Warnings on use Risk of damage to

the product:

- Use the products only for their intended purpose as described in the instructions for .
- Regularly check the condition of equipment and accessories such as collars, beds, soap dispensers or filters for damage or wear. In the event of visible damage, discontinue use of the product to avoid risks to animals.
- Electronic components (e.g. bark collars, thermoregulated beds) should be used in accordance the manufacturer's recommendations and avoid overheating or overloading.

Risk to animals:

- Products intended for pets must be suitable for their size and weight. Incorrect use may cause discomfort or injury.
- For electronic devices (e.g. bark collars), follow the manufacturer's instructions to avoid over-stressing your pet.
- Change the filters in equipment such as drinkers regularly to ensure the water quality is suitable for your pet.
- Grooming products, such as hair dryers and soap dispensers, should be used gently to avoid irritating the pet's skin.

Child endangerment:

- Pet products, especially electronic ones (e.g. cameras, collars), are not toys. Keep them out of the reach of children.
- Do not allow children to use products without adult supervision, especially when grooming together or playing with a pet.

Risks associated with electronic components:

- Regularly check the batteries or power supply in electronic devices (e.g. lasers, thermoregulated beds). If the batteries run out, replace them according to the manufacturer's recommendations.
- Do not expose electronic devices to water or moisture unless they are labelled waterproof.
- Do not use devices with damaged cables or power supplies.

Information on correct use Recommendations for

use:

- Read the instruction manual before first . Ensure that the product is assembled and configured according to the manufacturer's recommendations.
- For electronic devices such as collars, cameras or temperature-controlled beds, make sure they are correctly set and safe for your pet.
- Filters in equipment such as drinkers should be changed regularly to maintain hygiene.

Maintenance and storage:

- Products should be stored in a dry and clean place, free from moisture and temperature extremes.
- Electronic devices should be switched off when not in use to save energy and extend their life.
- Clean accessories regularly according to the manufacturer's recommendations. Use soft materials and mild detergents, avoiding harsh chemicals.

Battery safety:

- Only use batteries recommended by the manufacturer.
- Dispose of used batteries in accordance with local environmental regulations.
- When not using the device for long periods of time, remove the batteries to prevent leakage.

Additional precautions Adaptation**to the animal:**

- Regularly check that products, such as collars and beds, are comfortable and fit your pet properly.
- Observe your pet's reaction to new equipment or accessories - if you notice signs of discomfort, discontinue use.

Damage and service:

- Any repairs to electronic equipment should only be carried out by authorised service centres.
- Do not modify the products yourself, as this may affect their safety and functionality.

Statement of compliance

The products have been designed in accordance with the safety requirements of Regulation (EU) 2023/988 and comply with the relevant technical standards, including safety of materials and moving mechanisms.
