Automatic LED Leash

Rojeco 5m

User Manual

Description

You must unconditionally avoid contact with moisture, e.g., in the bathroom, etc. For safety and certification reasons, the device cannot be modified or changed in any way. If the product is used for purposes other than those described, it may be damaged. Furthermore, improper use may pose hazards. Please read the user manual carefully and keep it for future reference.

Safety Usage Instructions

You must read and follow the safety instructions contained in the manual.

1. The product is not a toy. Keep it out of reach of children and pets.
2. Protect the product from extreme temperatures, direct sunlight, strong vibrations, high humidity, moisture, flammable gases, vapors, and solvents.
3. Do not expose the product to mechanical loads.
4. If safe operation is no longer possible (the product is damaged, does not function properly), discontinue use and secure the product against further use.
5. Handle the product with care. Shocks, impacts, or dropping the product may cause damage.
6. If there are any doubts regarding the operation, safety, or connection of the product, consult a qualified professional.
7. If you have any questions that are not answered in this manual, please contact our customer service office or another specialist.

Ensure the safety of both yourself and your beloved pet during evening walks. The Rojeco automatic leash, 5 m long, is equipped with an ergonomic handle and a reliable LED flashlight and RGB backlight. It features a sturdy and damage-resistant design. It is also resistant to tangling. With it, you can walk your dog or cat even in unfavorable lighting conditions, ensuring that road users will notice your presence. The product is suitable for

animals weighing no more than 35 kg.

LED Flashlight

Safety Usage Instructions With Rojeco, you will increase your visibility on the road. The automatic leash has been

You must read and follow the safety instructions contained in the manual for the product equipped with a built-in LED flashlight, so you do not overlook anything important and remain cautious if necessary.

1. The product is not a toy. Keep it out of reach of children and pets. Intuitive operation.
2. Protect the product from extreme temperatures, direct sunlight, strong vibrations, high humidity, moisture, flammable gases, vapors, and solvents. Thanks to the practical button, the operation of the Rojeco leash is convenient and intuitive. The first press of the button activates the LED flashlight. If you want to turn on the RGB backlight, press the button again. The third press allows you to use both the flashlight and the backlight. The fourth press turns off both functions. Meanwhile, with the switch, you can conveniently control the length of the leash.
3. Do not expose the product to mechanical loads.
4. If safe operation is no longer possible (the product is damaged, does not function correctly), you must stop using it and secure the product against reuse.
5. Handle the product with care. Shocks, impacts, or dropping the product may cause damage.
6. If there are any doubts regarding operation, safety, or connecting the product, consult a qualified professional.
7. If you have any questions that are not answered in this manual, please contact our customer service office or another specialist. Additionally, the ergonomic handle is made of non-slip material TPR, which increases user comfort. To power the device, two AAA batteries are required (sold separately).

Environmental Protection

Used electronic equipment marked in accordance with the European Union directive must

not be placed together with other municipal waste. It is subject to selective collection and recycling at designated points. By ensuring its proper disposal, you prevent potential negative consequences for the natural environment and human health. The collection system for used equipment complies with locally applicable environmental protection regulations regarding waste disposal. Detailed information on this can be obtained from the municipal office, waste management facility, or the store where the product was purchased. The product meets the requirements of the so-called New Approach directives of the European Union (EU) regarding issues related to user safety, health protection, and environmental protection, specifying hazards that should be detected and eliminated. This document is a translation of the original user manual created by the manufacturer. Detailed information about the distributor/manufacturer warranty conditions is available at <https://serwis.innpro.pl/gwarancja>

The product should be regularly maintained (cleaned) by the user or by specialized service points at the user's cost and scope. If there is no information about necessary maintenance or service actions in the user manual, the user should regularly, at least once a week, assess the physical condition of the product against that of a physically new product. If any deviation is detected or noted, urgent maintenance (cleaning) or service steps should be taken. Failure to perform proper maintenance (cleaning) and respond when a deviation is detected may lead to permanent damage to the product. The guarantor is not responsible for damages resulting from negligence.
