

Automatic Leash A12 Rojeco 3m & 5m User Manual

Description

Contact with moisture must be unconditionally avoided, e.g., in the bathroom, etc. For safety and certification reasons, the device must not be modified or altered in any way. If the product is used for purposes other than those described, it may be damaged. Furthermore, improper use may pose hazards. Carefully read the user manual and keep it for future reference.

Safety Guidelines for Use

It is necessary to read and follow the safety guidelines contained in the instructions.

1. The product is not a toy. Keep it out of reach of children and animals.
2. Protect the product from extreme temperatures, direct sunlight, strong vibrations, high humidity, moisture, flammable gases, vapors, and solvents.
3. Do not expose the product to mechanical loads.
4. If safe operation is no longer possible (the product is damaged, not functioning properly), discontinue use and secure the product against reuse.
5. The product should be handled with care. Shocks, impacts, or dropping the product may cause damage.
6. If there are any doubts regarding the operation, safety, or connection of the product, please consult a qualified professional.
7. If you have any questions that are not answered in this manual, please contact our customer service office or another specialist.

Ensure the safety of both yourself and your beloved pet during evening walks. The Rojeco automatic leash, available in lengths of 3m & 5m, is equipped with an ergonomic handle. It features a solid and damage-resistant construction. It is also resistant to tangling. The product is suitable for animals weighing no more than 30 kg.

Intuitive operation

Thanks to the practical button, operating the Rojeco leash is convenient and intuitive.

Thoughtful design

The leash rotates 360°, is resistant to tangling, and is damage-resistant. The U-shaped retractable opening allows you to control your pet from any angle. This way, you can freely walk your furry friend, knowing that they won't stray too far from you.

Additionally, the ergonomic handle is made of non-slip TPR material, which increases user comfort.

Model: A12

Material: ABS / TPR / Nylon

Length: 3m & 5m

Weight: 3m 314 g / 5m 256 g

Dimensions: 3M (16*10.5*3.9 cm) / 5M (18*11.6*4.5 cm)

Intended for animals weighing no more than 30 kg.

Environmental Protection

Used electronic equipment marked in accordance with the European Union directive must not be disposed of together with other municipal waste. It is subject to selective collection and recycling at designated points.

By ensuring its proper disposal, you prevent potential negative consequences for the natural environment and human health. The collection system for used equipment complies with locally applicable environmental protection regulations regarding waste disposal. Detailed information on this topic can be obtained from the municipal office, waste management facility, or the store where the product was purchased.

The product meets the requirements of the so-called New Approach directives of the European Union (EU)

regarding safety, health protection, and environmental protection, which define hazards that should be detected and eliminated. This document is a translation of the original operating instructions created by the manufacturer.

Detailed information about the warranty conditions from the distributor/manufacturer is available on the website <https://serwis.innpro.pl/gwarancja>

The product should be regularly maintained (cleaned) at the user's own expense or by specialized service points. In the absence of information regarding necessary periodic maintenance or service actions in the operating instructions, the physical condition of the product should be assessed regularly, at least once a week, to determine any deviation from that of a physically new product. If any deviation is detected or identified, urgent maintenance (cleaning) or service steps must be taken. Failure to properly maintain (clean) and respond upon detecting a state of deviation may lead to permanent damage to the product.

The warranty does not cover damages resulting from negligence.

Warnings and Safety Information

All information regarding the use of the product can be found in the operating instructions. Before you start using it, familiarize yourself with its content and follow the guidelines contained within.

Before use, also review the following information:

Usage Warnings

Risk of product damage:

- Products should only be used in accordance with their intended purpose, as described in the operating instructions.
- Regularly check the condition of the leash, collar, backpacks, and other accessories. In case of visible damage, such as abrasions, cracks, or deformations, discontinue use of the product to avoid the risk of losing control over the animal.
- Do not overload products intended for transport, such as backpacks and bags – adhere to the maximum recommended weights and sizes of the animal.

Threat to animals:

- Leashes, collars, and harnesses should be properly fitted to the size and weight of the animal. Incorrect fitting may cause discomfort or injury.
- Transport products (e.g., backpacks) should only be used for transporting animals of appropriate weight and size.
- During walks in low visibility conditions, it is recommended to use accessories with reflective elements or LED lighting to increase the visibility of the animal and its owner.

Hazard to children:

- Products intended for animals, such as leashes or collars, are not toys. Do not allow children to use these products without adult supervision.
- During walks, children should be instructed on how to safely lead an animal on a leash to avoid unexpected situations, such as the animal breaking free.

Risks associated with electronic components:

- Regularly check the battery status, and if depleted, replace it with a new one that meets the manufacturer's recommendations.
- Avoid contact of electronic products with water unless they are marked as waterproof.
- Always choose a product suitable for the size and weight of the animal (e.g., leash, collar, or transport backpack).
- Familiarize yourself with the user manual before first use. Ensure that all components, such as fasteners, carabiners, and buckles, are functioning correctly.
- During walks in public places, ensure that the leash is properly secured to prevent accidental release of the animal.

Maintenance and storage:

- Products should be stored in a dry and clean place, free from moisture and extreme temperatures.
- Regularly clean walking and transport accessories with a soft cloth and mild detergents. Do not use chemical agents or sharp tools.
- For LED accessories, replace batteries according to the user manual to ensure uninterrupted lighting. **Battery safety:**
 - Use only batteries recommended by the manufacturer.
 - Used batteries must be disposed of in accordance with local environmental protection regulations.
 - Do not store batteries in the product for an extended period when not in use to avoid leakage.

Information on proper usage

Recommendations for use:

- Regularly check that the collar, leash, or backpack is comfortable and properly fitted to the pet. Improper fitting may cause chafing or other injuries.
- Observe the pet's reactions to new products – if you notice signs of discomfort, discontinue use.

Damage and service:

- Any repairs to mechanisms or electronic components should be carried out exclusively at authorized service points.
- Do not make any modifications to the product yourself, as this may affect safety during use.

Additional precautions

Adjustment to the pet:

Declaration of conformity

The products have been designed in accordance with the safety requirements specified in Regulation (EU) 2023/988 and meet the relevant technical standards, including those concerning the safety of materials and moving mechanisms.
