Sonoff terminal blocks for rail (20 pcs)

Brand: Sonoff

Description:

Sonoff terminal blocks for rail are the ideal solution for anyone who needs a quick and reliable connection of wires. With them, you can easily connect cables without the need for soldering, twisting, or using insulating tape. The set is perfect for use in home and industrial installations, providing durability and reliability. The Sonoff 211 terminal block set features a solid construction and ease of installation. These connectors are designed to work with a rated voltage of 250 V and a current of up to 32 A, ensuring their versatility and reliability in various working conditions. Sonoff 211 terminal blocks are made from the highest quality materials. The contact is made of red copper, which guarantees excellent conductivity and durability. Meanwhile, the PA insulation provides resistance to high voltage, corrosion, and aging, which translates to a long product lifespan.

Specification:

Manufacturer	Sonoff
Model	211
Rated voltage	250 V
Rated current	32 A
Contact material	Red copper
Insulation	PA
Solid wire	0.2-4 mm ² (24-12AWG)
Flexible wire	0.2-2.5 mm ² (24-14AWG)
Dimensions	8 x 48.2 x 30.8 mm

20 **Number of pieces in the set**

Precautions:

1. The product is not a toy. Do not allow children to play with it.
2. The product should be used only for its intended purpose.
3. Do not crush, squeeze, load, or subject the product to impact or falling to avoid damaging it.
