

User Manual

Sunnylife Silicone Strap for Insta360 GO Ultra

Description

The Sunnylife silicone strap for the Insta360 GO Ultra is a practical accessory designed for individuals who wish to capture dynamic footage without holding the camera in their hand. Thanks to its carefully considered design, you can conveniently secure the camera to your wrist, hand, backpack, bicycle, or even use the strap as a collar for a pet. The product also serves as a soft protective case, safeguarding the camera against scratches, dust, and accidental loss. Carefully designed openings for control LEDs on all four sides enable the Insta360 GO Ultra to be mounted both vertically and horizontally without obstructing the visibility of the indicators.

Use in Accordance with Intended Purpose

For safety and certification purposes, it is strictly prohibited to modify or alter the product in any way. In the event of use for purposes other than those described, the product may sustain damage. Furthermore, improper use may result in potential hazards.

Please read the user manual thoroughly and retain it for future reference. Ensure that all safety instructions contained within the manual are read and strictly adhered to.

1. This product is not a toy. Keep the product out of reach of children and animals.
2. Protect the product from extreme temperatures, direct sunlight, strong vibrations, high humidity, moisture, flammable gases, vapours, and solvents.
3. Do not expose the product to mechanical loads.
4. If safe operation is no longer possible (the product is damaged or malfunctioning), usage should be ceased immediately and the product secured to prevent further use.
5. Handle the product with care. Impacts, shocks, or drops may cause damage to the product.
6. If there are any doubts concerning usage or safety, you should consult a qualified professional.
7. Should you have any questions not answered in this manual, please contact our Customer Service Department via email at hurt@innpro.pl or visit our website at <https://innpro.pl/>, or alternatively consult another specialist.
