

Instruction Manual

Sunnylife Bike Mount for Controller

Description

The Sunnylife bike mount for the controller facilitates convenient drone operation whilst cycling, enabling the capture of dynamic follow shots (target tracking function) without the need to stop. This accessory is precisely designed for the DJI Mavic Air 2 controller, providing a secure fit that maintains stability even when traversing more challenging terrain. This is a practical solution for users who intend to capture dynamic footage during trips, training sessions, or outdoor excursions in a comfortable and safe manner.

Use in accordance with the intended purpose

For safety and certification reasons, the product must not be modified or altered in any manner. Use of the product for purposes other than those specified may result in damage to the product. Furthermore, improper use may present safety hazards.

Thoroughly read the user manual and retain it for future use. All safety instructions contained herein must be read and strictly observed.

1. This product is not intended as a toy. Keep the product out of the reach of children and animals.
2. Protect the product from extreme temperatures, direct sunlight, strong vibrations, excessive humidity, moisture, flammable gases, fumes, and solvents.
3. Do not subject the product to mechanical loads.
4. If safe operation is no longer possible (the product is damaged or not functioning correctly), use must be ceased immediately and the product secured to prevent further use.
5. The product must be handled with due care. Vibrations, impacts or dropping the product may result in damage.
6. Should any doubts arise regarding operation or safety, please consult a qualified technician.
7. Should you have any enquiries not addressed within this manual, please contact our customer service department via email at hurt@innpro.pl, through our website <https://innpro.pl/>, or consult an authorised specialist.
