

User Manual

Sunnylife SC121 Mount

Description

The Sunnylife SC121 is a mount engineered to provide maximum stability and safety during recording. Owing to the large 76-millimetre suction cup, it effectively evacuates air during installation, thereby delivering exceptionally strong and secure retention. The soft, fully coated surface of the suction cup safeguards paintwork and delicate surfaces from scratches, while an additional TPU anti-slip pad enhances friction and the overall stability of the design.

Use in Accordance with Intended Purpose

For reasons of safety and to maintain certification, the product must not be modified or altered in any manner. Use of the product for purposes other than those specified may result in damage to the product. In addition, use that does not conform to the intended purpose may present safety hazards.

Please read the user manual carefully and retain it for future reference. It is essential to read and adhere to all safety instructions contained within this manual.

1. This product is not a toy. Keep out of reach of children and animals.
2. Protect the product from extreme temperatures, direct sunlight, strong vibrations, high humidity, moisture, flammable gases, vapours and solvents.
3. Do not subject the product to mechanical loads.
4. If safe operation is no longer possible (the product is damaged or malfunctioning), use must be ceased immediately and the product secured to prevent further use.
5. The product must be handled with care. Shocks, impacts or dropping the product may result in damage.
6. Should any uncertainties arise concerning operation or safety, it is imperative to consult a qualified specialist.
7. Should you have any enquiries not covered within this manual, please contact our Customer Service Department
(Email: hurt@innpro.pl, Website: <https://innpro.pl/>) or an alternative qualified specialist.

Specification

Model: SC121

Material: Plastic + TPU + Metal

Weight: 117 g
