

User Manual

Sunnylife MCUV Lens Filter 1 pc for DJI Avata 2

Description

The Sunnylife filter for the DJI Avata 2 features an ultra-lightweight design, weighing approximately 1 g per unit. As a result, it does not affect the gimbal's operation nor add additional load during flight, thereby maintaining full smoothness and stability of recorded footage. This product is designed for users seeking to utilize filters without compromising drone performance or operational comfort.

Use in Accordance with Intended Purpose

For safety and certification reasons, it is strictly prohibited to modify or alter the product in any manner. Using the product for purposes other than those described may result in damage to the product. Furthermore, usage inconsistent with the intended purpose may cause safety hazards.

Carefully read the user manual and retain it for future reference. It is essential to read and comply with the safety instructions provided in the manual.

1. This product is not a toy. Keep it out of the reach of children and pets.
2. Protect the product from extreme temperatures, direct sunlight, intense vibrations, high humidity, moisture, flammable gases, fumes, and solvents.
3. Do not expose the product to mechanical stress.
4. If safe operation is no longer possible (the product is damaged or malfunctions), operation must be ceased and the product prevented from further use.
5. The product must be handled with caution. Shocks, impacts, or dropping the product may cause damage.
6. If any doubts arise concerning operation or safety, please consult a qualified professional
7. If you have any questions not answered in this manual, please contact our customer service department (email: hurt@innpro.pl, website: <https://innpro.pl/>) or consult another qualified specialist.
