

User Manual

Sunnylife ND Filter DJI Avata 2 ND32

Description

The Sunnylife ND Filter DJI Avata 2 ND32 has been engineered to deliver maximum performance without imposing additional weight on the drone. Its ultralight construction weighs approximately 0.7 g, thereby ensuring no interference with the gimbal's operation or stabilization. This solution preserves full flight smoothness and image capture precision, even during dynamic FPV sequences.

Use strictly in accordance with the intended purpose

For safety and certification reasons, the product must not be modified or altered under any circumstances. Use of the product for purposes other than those specified may result in product damage. Additionally, improper use may pose safety hazards.

Thoroughly read the user manual and retain it for future reference. All safety instructions contained in this manual must be carefully observed and followed.

1. This product is not a toy. Keep out of the reach of children and animals.
2. Protect the product from extreme temperatures, direct sunlight, strong vibrations, high humidity, moisture, flammable gases, fumes, and solvents.
3. Avoid subjecting the product to mechanical loads.
4. If safe operation is no longer feasible (the product is damaged or malfunctioning), use must be discontinued immediately, and the product must be secured to prevent further use.
5. The product must be handled with utmost care. Shocks, impacts, or dropping the product may result in damage.
6. Should any uncertainties arise concerning the operation or safety procedures, it is imperative to seek guidance from a qualified and certified specialist.
7. If you have any questions not addressed in this manual, please contact our customer service department

(email: hurt@innpro.pl, website: <https://innpro.pl/>) or an authorized specialist.

Specifications

Model: AT2-FI792-32

Compatible Models: Avata 2
