

User Manual

Sunnylife ND Filter DJI Avata 2 ND64

Description

The Sunnylife ND Filter DJI Avata 2 ND64 is engineered to deliver maximum performance without adding weight to the drone. Its ultra-lightweight construction weighs approximately 0.7 g, ensuring it does not interfere with the gimbal's operation or stabilization. This design preserves full smoothness of flight and precision in image capture, even during dynamic FPV shots.

Use in Accordance with Intended Purpose

For safety reasons and certification compliance, the product must not be modified or altered in any manner. Use of the product for purposes other than those described may result in product damage. Moreover, improper use may cause safety hazards.

Thoroughly read the user manual and keep it for future reference. The safety instructions contained in the manual must be read and strictly followed.

1. This product is not a toy. Keep it out of the reach of children and animals.
2. Protect the product from extreme temperatures, direct sunlight, strong vibrations, high humidity, moisture, flammable gases, vapors, and solvents.
3. Do not subject the product to mechanical loads.
4. If safe operation is no longer possible (the product is damaged or does not function properly), use must be stopped immediately and the product secured to prevent further use.
5. The product must be handled with caution. Shocks, impacts, or dropping the product may cause damage.
6. If there are any doubts regarding operation or safety, seek advice from a qualified professional.
7. Should you have any questions not addressed in this manual, please contact our customer support team

(email: hurt@innpro.pl, website: <https://innpro.pl/>) or consult another specialist.

Specifications

Model: AT2-FI792-64

Compatible models: Avata 2

Material: PC + optical glass

Weight: approx. 0.7 g

Manufacturer:

SDSHOBBY Technology Industrial Limited

Long Hua District, Building 2, 5th Floor, 518131 Shenzhen, China
