

User Manual

Sunnylife Flip ND8 ND Filter

Description

The Sunnylife Flip ND8 is an ultralight filter weighing approximately 0.5 g, engineered to avoid interfering with gimbal operation or imposing additional burden on the drone's structural framework. This design enables full utilization of image stabilization capabilities while providing enhanced exposure control and delivering smoother footage under bright lighting conditions. This solution has been designed for creators who demand maximum quality without compromise to flight ergonomics.

Intended Use

For safety and certification reasons, the product must not be modified or altered under any circumstances. Use of the product for purposes other than those specified may result in damage to the product. Moreover, improper use may present safety hazards.

The user manual must be read thoroughly and retained for future reference. The safety instructions presented in this manual must be read and strictly adhered to.

1. This product is not a toy. Keep out of reach of children and animals.
2. Protect the product from extreme temperatures, direct sunlight, intense vibrations, high humidity, moisture, flammable gases, fumes, and solvents.
3. Do not expose the product to mechanical loads.
4. If safe operation is no longer possible (the product is damaged or malfunctioning), usage must cease immediately and the product must be secured to prevent further use.
5. The product must be handled with extreme care. Impacts, shocks, or dropping the product may result in damage.
6. Should any uncertainties arise concerning operation or safety, please consult a qualified specialist.
7. Should you have any inquiries not addressed in this manual, please contact our Customer Service Department
