

User Manual

Sunnylife Flip ND32 Filter

Product Description

The Sunnylife Flip ND32 is an ultralight filter weighing approximately 0.5 g, engineered to avoid any impact on gimbal performance and to prevent imposing additional structural load on the drone. This design enables unrestricted use of full image stabilization, while providing enhanced control over exposure and facilitating smoother footage under bright lighting conditions. This product is engineered for creators who require uncompromising maximum quality alongside optimal flight ergonomics.

Use in strict accordance with the intended purpose

For safety and certification compliance, the product must not be modified or altered under any circumstances. Use of the product for any purposes other than those specified may result in damage. Furthermore, improper use may present safety hazards.

Thoroughly read the user manual and retain it for future reference. The safety instructions contained in this manual must be read and strictly adhered to.

1. This product is not a toy. Keep the product out of the reach of children and animals.
2. Ensure the product is protected from extreme temperatures, direct sunlight, strong vibrations, high humidity, moisture, flammable gases, vapors, and solvents.
3. Do not subject the product to mechanical loads.
4. If safe operation is no longer possible (e.g., the product is damaged or not functioning properly), use must be discontinued immediately and the product secured to prevent further use.
5. The product should be handled with care. Shocks, impacts, or dropping the product may result in damage.
6. In case of any uncertainties concerning operation or safety, it is imperative to consult a qualified professional.
7. Should any questions arise that are not addressed in this manual, please contact our Customer Service Department via email at hurt@innpro.pl, through our website <https://innpro.pl/>, or consult another qualified specialist.

Specifications

Model: FP-FI962-32

Compatible Model(s): FLIP
