

User Manual

Sunnylife Flip CPL Filter

Description

The Sunnylife CPL Filter is an ultralight filter weighing approximately 0.5 g, designed not to interfere with the gimbal's operation nor impose additional load on the drone's frame. This enables uninterrupted use of full image stabilization while providing enhanced control over exposure and smoother footage in bright lighting conditions. This solution is developed for creators who demand the highest quality without compromising flight ergonomics.

Usage in accordance with intended purpose

For safety and certification compliance, the product must not be modified or altered in any manner. Use of the product for purposes other than those specified may result in damage. Moreover, improper use may pose safety hazards.

Carefully read the user manual and retain it for future reference. Safety instructions contained within this manual must be read and strictly adhered to.

1. This product is not a toy. Ensure it is kept out of reach of children and animals.
2. Protect the product from extreme temperatures, direct sunlight, strong vibrations, high humidity, moisture, flammable gases, fumes, and solvents.
3. Do not expose the product to mechanical stress.
4. If safe operation is no longer possible (the product is damaged or not functioning properly), use must be discontinued and the product secured against further use.
5. Handle the product with care. Shocks, impacts, or dropping the product may cause damage.
6. If there are any doubts regarding operation or safety, consult a qualified professional.
7. Should you have any questions not addressed in this manual, please contact our Customer Service department
(Email: hurt@innpro.pl, Website: <https://innpro.pl/>) or another qualified specialist.

Specifications

Model: FP-FI963

Compatible Models: FLIP

Material: PC and Optical Glass

Weight: 0.5 g each

Dimensions: 16 x 22 mm

Manufacturer:

SDSHOBBY Technology Industrial Limited

2nd Building, 5th Floor, Long Hua District, 518131 Shenzhen, China
