

User Manual

Sunnylife Two-Way Quick-Release Mounting Adapter for Osmo Nano / Action 6 — 1/4 inch

Description

The Sunnylife mount featuring a two-way quick-release adapter has been engineered to ensure maximum convenience and safety during the use of Osmo Nano and Action 6 cameras.

The two-way quick-release system enables rapid attachment and removal of the device. Additionally, the integration of a strong magnet combined with a latch mechanism delivers dual locking security, effectively preventing inadvertent loosening even under dynamic shooting conditions. This solution is suitable wherever rapid response and recording stability are critical.

Intended Use

For safety and certification reasons, the product must not be reconstructed or modified in any manner. Use of the product for purposes other than those specified may result in damage. Moreover, inconsistent use with the intended purpose may create hazards.

Thoroughly read the user manual and keep it for future reference. The safety instructions provided herein must be thoroughly read and strictly observed.

1. This product is not a toy. Keep the product out of the reach of children and animals at all times.
2. Protect the product against exposure to extreme temperatures, direct sunlight, strong vibrations, high humidity, moisture, flammable gases, vapors, and solvents.
3. Do not subject the product to mechanical stress or overload.
4. If safe operation is no longer assured (e.g., the product is damaged or malfunctioning), immediate cessation of use is required, and the product must be secured to prevent further utilization.
5. Handle the product with caution. Exposure to shocks, impacts, or drops may result in product damage.

6. In the event of any uncertainties concerning operation or safety measures, the user must consult a qualified specialist.

7. Should any questions arise that are not addressed within this manual, users are advised to

contact our customer service department
