User Manual

Sunnylife MCUV+ND8+ND16+ND32 Filter Set for DJI Avata 2

Description

The Sunnylife MCUV+ND8+ND16+ND32 filter set for DJI Avata 2 is designed for professionals and enthusiasts of drone photography who wish to achieve perfection in their shots. This filter set offers complete control over the amount of light entering the lens, allowing for excellent image quality both in bright sunlight and in more challenging lighting conditions. Combining high-quality optical glass and innovative multi-layer coatings, Sunnylife filters guarantee unmatched clarity and true color reproduction.

Intended Use

For safety and certification reasons, the device must not be modified or altered in any way. Using the product for purposes other than those described may result in damage to the product. Additionally, improper use may pose hazards. Carefully read the user manual and keep it for future reference.

Safety Usage Guidelines

Read and follow the safety guidelines contained in the manual.

1. The product is not a toy. Keep it out of reach of children and pets.
2. Protect the product from extreme temperatures, direct sunlight, strong vibrations, high humidity, moisture, flammable gases, vapors, and solvents.
3. Do not expose the product to mechanical stress.
4. If safe operation is no longer possible (the product is damaged, not functioning properly), discontinue use and secure the product against further use.
5. Handle the product with care. Shocks, impacts, or dropping the product may cause damage.
6. If there are any doubts regarding the operation, safety, or connection of the product, consult a qualified professional.
7. If you have any questions that are not answered in this manual, please contact our

customer service office (email: hurt@innpro.pl, website: <https://innpro.pl/>) or another specialist.
