Machine translation from Polski. In case of doubt the manufacturer's original document prevails.

User Manual

Sunnylife A3S-FI926 Lens Filter for AIR 3S 4pcs Mixture ND8+ND16+ND32+ND64

Description

The adjustable Sunnylife A3S-FI926 filter set for the AIR 3S drone is an excellent tool for those who want to gain full control over exposure while photographing and filming. The set includes four ND filters – ND8, ND16, ND32, and ND64 – which allow for precise adjustment of the amount of light entering the lens. With these filters, your recordings will achieve a professional look, even in the most demanding lighting conditions.

Intended Use

For safety and certification reasons, the device must not be modified or altered in any way. Using the product for purposes other than those described may result in damage to the product. Additionally, improper use may pose hazards. Please read the user manual carefully and keep it for future reference. It is important to read and follow the safety instructions contained in the manual.

1. The product is not a toy. Keep it out of the reach of children and pets.
2. Protect the product from extreme temperatures, direct sunlight, strong vibrations, high humidity, moisture, flammable gases, fumes, and solvents.
3. Do not expose the product to mechanical loads.
4. If safe operation is no longer possible (the product is damaged, not functioning properly), discontinue use and secure the product against further use.
5. Handle the product with care. Shocks, impacts, or dropping the product may cause damage.
6. If there are any doubts regarding operation or safety, consult a qualified professional.
7. If you have any questions that are not answered in this manual, please contact our customer service office (email: hurt@innpro.pl, website: <https://innpro.pl/>) or another specialist.
