User Manual

Filter Set for Sunnylife A3S-FI928 Lens 4pcs for AIR 3S

Description

The Sunnylife A3S-FI928 filter set is the perfect choice for AIR 3S drone users looking for versatile solutions to enhance the quality of their shots. The set includes four different filters: MCUV, CPL, ND32, and ND64. With these, you will not only protect the drone's lens from damage but also achieve better colors, contrast, and appropriate exposure in various lighting conditions.

Intended Use

For safety and certification reasons, the device must not be modified or altered in any way. Using the product for purposes other than those described may result in damage to the product. Furthermore, improper use may pose hazards. Please read the user manual carefully and keep it for future reference. It is essential to read and follow the safety instructions contained in the manual.

1. The product is not a toy. Keep it out of reach of children and pets.
2. Protect the product from extreme temperatures, direct sunlight, strong vibrations, high humidity, moisture, flammable gases, vapors, and solvents.
3. Do not expose the product to mechanical loads.
4. If safe operation is no longer possible (the product is damaged, not functioning correctly), discontinue use and secure the product against further use.
5. Handle the product with care. Shocks, impacts, or dropping the product may cause damage.
6. If there are any doubts regarding operation or safety, consult a qualified professional.
7. If you have any questions not answered in this manual, please contact our customer service office (email: hurt@innpro.pl, website: <https://innpro.pl/>) or another specialist.
