User Manual

Sunnylife Anti-Shock Clamp for DJI Flip

Description

The Sunnylife Anti-Shock Clamp for DJI Flip is a small but highly effective accessory that significantly improves the stability of the drone during flight. Its integrated design connects the front and rear arms, reducing vibrations and resonance, which translates to smoother footage during flight and greater control precision. This is an indispensable solution for any pilot who expects maximum control even in challenging conditions.

Intended Use

For safety and certification reasons, the device must not be modified or altered in any way. Using the product for purposes other than those described may result in damage to the product. Additionally, improper use may pose hazards. Please read the user manual carefully and keep it for future reference.

Safety Instructions

You must read and follow the safety instructions contained in the manual.

1. The product is not a toy. Keep it out of reach of children and pets.
2. Protect the product from extreme temperatures, direct sunlight, strong vibrations, high humidity, moisture, flammable gases, vapors, and solvents.
3. Do not subject the product to mechanical loads.
4. If safe operation is no longer possible (the product is damaged, not functioning properly), discontinue use and secure the product against reuse.
5. Handle the product with care. Shocks, impacts, or dropping the product may cause damage.
6. If there are any doubts regarding the operation, safety, or connection of the product, consult a qualified professional.
7. If you have any questions that are not answered in this manual, please contact our customer service office (email: hurt@innpro.pl, website: <https://innpro.pl/>) or another specialist.
