WARNING:

Dear customer, thank you very much for purchasing this product! Please Properly read and understand this manual before using this product.

1. Some lights use 18650 batteries for the power supply. Please install the batteries in the correct direction ("+" means positive and "-" means negative).
2. The product with indicator light. When charging, the indicator light is red, and when it is fully charged, the indicator light is green/blue. When the battery is low, the indicator light will flash red.

• Charging

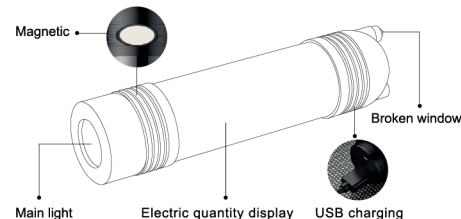

• Full Charged

1.1 USB charging instruction chart

3. Do not shine directly in the eyes. Powerful LED light can damage eyes immediately.
4. Only use provided battery charger for charging.
5. If the battery isn't used for a very long time, please recharge and discharge it every 3 months to keep the battery in good condition.
6. It's normal that the headlight will get a little hot when it is used for a long time.
7. Please recharge the battery as soon as possible when the indicator light shows low power
8. Please keep the battery away from water, moisture and drop, etc.
9. To avoid any damage to the headlamp's surface, please don't constantly expose the headlamp to sunlight, water, chemicals, corrosive gases or any other oxidizing environments.
10. All product parameters provided in this manual are our laboratory data, for reference only, and there is no actual way to use it.
11. As our series of products will be continuously upgraded, this manual can still be applied to the subsequent series of products.

INSTRUCTION FOR T2/T3/T5 series

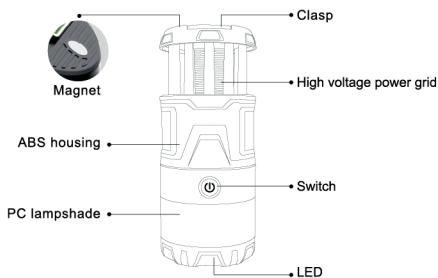

INSTRUCTIONS

1. 2. Three camping lights have a powerful magnet function, which can be arbitrarily adsorbed on the metal surface, and the tail has a window breaker.
3. Three models all have a power bank function, which can charge mobile electronic devices, such as mobile phones, laptops, etc.
4. Three camping lights are equipped with a USB charging port and can be charged with chargers, power banks, computers and other devices. When charging, the charging indicator lights up red, and when fully charged, the indicator lights up green/blue. When the power of the headlight is low, the indicator light will flash red. (As Figure 1.2)

PRODUCT PARAMETERS

Items	Theoretical Brightness	BatteryType (Battery Capacity)	Charging way	Light Modes
T2	300 Lumens	1*18650 rechargeable Li-ion battery	USB cable	Front:High Side:Low>Mid>High>Yellow>e strobe
T3	300 Lumens	2*18650 rechargeable Li-ion battery	USB cable	Front:High Side:Low>Mid>High>Yellow>e strobe
T5	300 Lumens	3*18650 rechargeable Li-ion battery	USB cable	Front:High Side:Low>Mid>High>Yellow>e strobe

INSTRUCTION FOR T9/T15

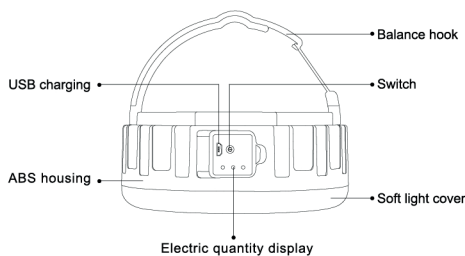

INSTRUCTIONS

1. T9 press the tail switch button to turn on the strong light, press the tail button to change modes, three modes in the cycle(strong light-medium light-continuous double press strobe-long press for two seconds to turn off), open the bottom buckle and stretch the lamp outward to show the light.
2. T15 press the center switch button to turn on the front light, continue to press to change 5modes in the cycle(front strong light-front low light-front light strobe-side strong light-side low light-off). Open the bottom buckle and stretch the lamp outward to turn on the UV light.
3. T9 uses 4 sections of 18650 lithium batteries. Please install the batteries in the correct direction ("+" means positive and "-" means negative). (As Figure 1.1)
4. The camping lights are equipped with a USB charging port and can be charged with chargers, power banks, computers and other devices. When charging, the charging indicator lights up red, and when fully charged, the indicator lights up green/blue. When the power of the headlight is low, the indicator light will flash red. (As Figure 1.2)

PRODUCT PARAMETERS

Items	Theoretical Brightness	BatteryType (Battery Capacity)	Charging way	Light Modes
T9	800 Lumens	4*18650 rechargeable Li-ion	USB cable	3 modes Strong > Middle >Strobe
T15	500 Lumens	18650 rechargeable Li-ion(built-in) (2300mAh)	USB cable	Front: High >low>strobe Side: High>low UV light: 1 mode

INSTRUCTION FOR T20/T25

INSTRUCTIONS

1. T20 Press the power button in the cycle(strong, low, strobe), long press 2 seconds at any modes to change in SOS, the lamp head has a handle and hanging ears, which can be used by hand and hanging buckle, which is convenient to use.
2. T25 Press the switch button to turn on the strong light, and change three modes in the cycle (low light-medium light-strong light-off), the lamp head has a handle and hanging ears, which can be used by hand and hanging buckle, which is convenient to use.
3. The lights are equipped with a USB charging port and can be charged with chargers, power banks, computers and other devices. When charging, the charging indicator lights up red, and when fully charged, the indicator lights up green/blue. When the power of the headlight is low, the indicator light will flash red. (As Figure 1.2)

PRODUCT PARAMETERS

Items	Theoretical Brightness	BatteryType (Battery Capacity)	Charging way	Light Modes
T20	180 Lumens	18650 battery (built-in, 1200mAh)	USB cable	3 modes High >low>strobe
T25	400 Lumens	2*18650 battery (1200mAh)	USB cable	3 modes Low>Mid>Strong
