Superfire UV06 UV Flashlight

The Superfire flashlight is a practical accessory that you can use every day. With it, you will see traces invisible to the eye, such as food stains on the carpet, dust mites on the mattress, etc. It will also help determine the authenticity of documents and banknotes. It is resistant to external factors and drops from up to 1 m. The flashlight is powered by 6 AA batteries (not included). Equipped with 100 LED beads, it provides more light, and the wavelength is 395 nm. The Superfire flashlight is made of aluminum alloy, making it resistant to damage and drops from a height of 1 m. You can use it outdoors, as it is protected against water, moisture, and strong winds. The ergonomic design of the UV06 ensures comfort of use, while the non-slip finish guarantees stability.

Precautions:

For safety and certification reasons, the device must not be modified or altered in any way. If the product is used for purposes other than those described, it may be damaged. Furthermore, improper use may pose hazards. Read the user manual carefully and keep it for future reference. You must read and follow the safety instructions contained in the manual.

1. The product is not a toy. Keep it out of reach of children and pets.
2. Do not expose the product to mechanical loads.
3. If safe operation is no longer possible (the product is damaged, not functioning properly), stop using it and secure the product against reuse.
4. If there are any doubts regarding the operation, safety, or connection of the product, consult a qualified professional.
5. If you have any questions that are not answered in this manual, please contact our customer service office or another specialist.

Manufacturer: Superfire

Weight: 276g

Water protection: IP46

Dimensions: 191 x 78 x 38 mm

Wavelength: 395 nm

Drop resistance: up to 1 m

Power supply: batteries: 6xAA

Color: black

ENVIRONMENTAL PROTECTION

Waste electrical and electronic equipment marked in accordance with the European Union directive must not be placed together with other municipal waste. It is subject to selective collection and recycling at designated points. By ensuring its proper disposal, you prevent potential negative consequences for the natural environment and human health. The system for collecting used equipment complies with locally applicable environmental protection regulations regarding waste disposal. Detailed information on this topic can be obtained from the municipal office, waste management facility, or the store where the product was purchased.

The product meets the requirements of the so-called New Approach directives of the European Union (EU) concerning issues related to user safety, health protection, and environmental protection, specifying hazards that should be detected and eliminated.
