

Product instruction

30Led-high light

- ① Solar lamp ② The instructions
- ③ Four Expansion nail ④ Light pole
- ⑤ Remote Control (Select)

product specification

solar panel: 1.5W 5.5V

led: 30pos SMD 2835

Led light color:white/warm white

3.7V 2200MAH battery: 18650 lithium battery 3.7V
(2200-4800MAH)

waterproof:IP44

Working mode : normally on

Lampshade material: PC

shell material:PC+ABS

output rate:1.8W

lumens:400lm

Switch usage steps

①、Function of key

1.Touch the switch to make the light flash, that is to turn on, and then touch the switch to turn off.

②、Installation steps

Connect the solar panel connector line first,install the solar panel and fix the position of outdoor sun exposure,hang the lamp cap shell at will and place the lighting position,

③、Matters needing attention:

- 1.The solar light is light control,automatically turn off and charging at daytime,if yong want it work at daytime, you need to use something to cover the solar panel
- 2.Please let it under sunshine to charge it for several hours when you use it at the first time.
- 3.Charge every other month when the product is not in use for a long time
- 4.The efficiency of the solar panel depends on the weather , the strong sunshine it has, the better efficie it will be,the efficiency of the solar panel will be weakened on cloudy day,the longer sunshine it has,the w time will be longer.
