18650 Superfire 2300 mAh Battery

User Manual

Description

The 18650 Superfire 2300 mAh battery is a lithium-ion cell with PCB protection, designed for safe and long-lasting use. The capacity of 2300 mAh, output voltage of 3.7 V, and charging voltage of 4.2 V provide stable power for devices compatible with the 18650 standard. The battery measures 66 × 18 mm, weighs 60 g, and offers up to 500 charge cycles, making it an economical alternative to disposable batteries.

Intended Use

For safety and certification reasons, the product must not be modified or altered in any way. Using the product for purposes other than those described may result in damage to the product. Furthermore, improper use may pose hazards. Please read the user manual carefully and keep it for future reference. It is essential to read and follow the safety instructions contained in the manual.

1. The product is not a toy. Keep it out of reach of children and pets.
2. Protect the product from extreme temperatures, direct sunlight, strong vibrations, high humidity, moisture, flammable gases, vapors, and solvents.
3. Do not subject the product to mechanical stress.
4. If safe operation is no longer possible (the product is damaged, not functioning correctly), discontinue use and secure the product from reuse.
5. Handle the product with care. Shocks, impacts, or dropping the product may cause damage.
6. If there are any doubts regarding operation or safety, consult a qualified professional.
7. If you have any questions not answered in this manual, please contact our customer service office (email: hurt@innpro.pl, website: <https://innpro.pl/>) or another specialist.

Specifications:

Manufacturer: Superfire

Battery Type: Lithium-ion (Li-Ion) 18650

Protection: PCB

Capacity: 2300 mAh

Output Voltage: 3.7 V

Charging Voltage: 4.2 V

Number of Charge Cycles: up to 500

Dimensions: 66 × 18 mm

Weight: 60 g

Environmental Protection

Used electronic equipment marked in accordance with the European Union directive must not be disposed of with other municipal waste. It is subject to selective collection and recycling at designated points. By ensuring its proper disposal, you prevent potential negative consequences for the natural environment and human health. The collection system for used equipment complies with locally applicable environmental protection regulations regarding waste disposal. Detailed information on this can be obtained from the municipal office, waste management facility, or the store where the product was purchased. The product meets the requirements of the so-called New Approach directives of the European Union (EU) concerning safety, health protection, and environmental protection, identifying hazards that should be detected and eliminated.

This document is a translation of the original user manual created by the manufacturer.

Detailed information on the distributor/manufacturer's warranty conditions is available on the website <https://serwis.innpro.pl/warranty>

The product should be regularly maintained (cleaned) by the user or through specialized service points at the user's cost and responsibility. In the absence of information regarding necessary periodic or service maintenance actions in the user manual, the user should regularly, at least once a week, assess the physical condition of the product against that of a physically new product. If any deviation is detected or noted, urgent maintenance (cleaning) or service steps should be taken. Failure to properly maintain (clean) and respond upon detecting a deviation may lead to permanent damage to the product. The warranty does not cover damages resulting from neglect.
