

Έξυπνη κλειδαριά SwitchBot Ultra 3-σε-1 με πίνακα ελέγχου Hub Mini Matter και πληκτρολόγιο Vision

SwitchBot · EAN 0810150546125

Machine translation from Polski. In case of doubt the manufacturer's original document prevails.

This document is a translation of the original user manual created by the manufacturer. Detailed information about the distributor/manufacturer warranty conditions is available on the website <https://serwis.innpro.pl/gwarancja>. The product should be regularly maintained (cleaned) at the user's expense and discretion or by specialized service points. In the absence of information about necessary periodic or service maintenance actions in the user manual, the physical condition of the product should be assessed regularly, at least once a week, against that of a physically new product. If any deviation is detected or identified, urgent maintenance (cleaning) or service steps should be taken. Failure to properly maintain (clean) and respond upon detection of a deviation may lead to permanent damage to the product. The warranty provider is not responsible for damages resulting from neglect.

Warnings and safety information All information regarding the use of the product can be found in the user manual. Before you start using it, familiarize yourself with its content and follow the guidelines contained therein. Before use, also review the following information:

Usage warnings Child hazard: The product is not intended for play and is not suitable for children.

- Do not manipulate devices that are connected to electricity, nor attempt to open them, to avoid
- Smart home actuators contain small components and electronic parts that may pose a choking risk. Keep devices away from children to prevent accidental swallowing of small elements or damage to the product due to improper use. Do not expose the product to impacts, falls, strong shocks, and other factors that could cause its damage.

Physical safety:

- Installation and configuration of the product should be carried out by an adult.
- In the case of digital locks and video intercoms, ensure that they are mounted securely and in a location compliant with the manufacturer's recommendations. Improper installation may affect their effectiveness and safety.

Electric shock hazard: All electrical devices must be installed according to the user manual and in a safe manner, preferably by a qualified specialist. In the case of controllers and thermostats, ensure that the installation does not obstruct access to important systems, e.g., heating or electrical systems.

Risk of improper use: Never use damaged cables, plugs, or sockets to prevent the risk of short circuits or

electric shock. • Ensure that users are aware of the correct way to use the devices, e.g., proper code entry for digital locks or using the mobile app to control devices. Risk of device damage: In the case of smart plugs and energy consumption meters, ensure that the connected devices comply with the maximum load parameters specified by the manufacturer. • Avoid using devices in environments that may cause them to overload.

Wireless connectivity SIMPLIFIED EU DECLARATION OF CONFORMITY Data protection: • Most smart home actuators use Wi-Fi, Bluetooth, or Zigbee connectivity. Woan Technology (Shenzhen) Co., Ltd. hereby declares that the type of radio device Smart Door Lock SwitchBot Lock Ultra is compliant with Directive 2014/53/EU. The full text of the EU declaration of conformity is available at the following address:

<https://files.innpro.pl/switchbot>. Secure your devices with a strong password and enable two-factor authentication if available. Regularly update the software of devices and mobile applications to ensure data security and protection against unauthorized access. • If possible, ensure that all data transmitted between devices is encrypted to prevent interception by third parties. Access management: Radio frequency: 2480Mhz - 2483.5Mhz Maximum radio frequency power: <20dBm Limit access to mobile applications and smart home devices exclusively to trusted users. • Regularly review the list of devices connected to the system and remove those that are no longer needed or may pose a security threat. • Do not dispose of devices in municipal waste – contact your local electrical equipment collection point.

If you need additional information regarding the product, please contact customer service (email: hurt@innpro.pl, website: <https://innpro.pl/>) or another specialist. Importer:
