Contents of the package

Indoor Thermometer and
Hygrometer
(Meter Plus) × 1

AAA Batteries × 2
(included)

User Manual × 1
3M Metal Mount
Plate × 1

Product Description

Installation

① Remove the insulation tab from the battery compartment.

The device will turn on automatically.

② To install the device on a non-metal surface, peel off the tape from the back of the metal plate and stick it to the surface. Then, attach the device with the built-in magnet to the metal plate.

③Download the SwitchBot
app

iOS 11.0+
Android OS 5.0+

④Open the app, register an account or log in directly to your account if you already have one, and then add the device to your account.

Add to SwitchBot account

Open the app, tap the "+" in the top right corner of the home page, find the Meter Plus icon and select it. Press and hold the button on the back until the Bluetooth icon flashes on the screen. Your Meter Plus is now ready to be added.

Change temperature unit

Press the button on the back of the Meter Plus to change the temperature unit on the display.

Battery Replacement

Extend the base at the largest angle, then open the battery compartment cover. Remove the batteries, insert 2 AAA batteries, and then replace the battery compartment cover.

Firmware Update

To enhance the product, our company will regularly release firmware updates to add new features and information on troubleshooting potential software issues. When a new firmware version is available, we will send an update notification to your account via our app. During the update, ensure that your product has sufficient power and that your smartphone is within range to prevent disruptions.

Setting Alerts

Press and hold the button on the back of the device for 15 seconds to restore factory settings.

Factory Reset

Additional Settings

temperature/humidity. You will receive notifications when you are within Bluetooth range.

Note: If you want to receive notifications remotely, you will need a SwitchBot Hub Mini (sold separately).

The app can be customized to your own

Subdistrict, Bao'an District, Shenzhen, Guangdong,
P.R. China, 518100

Product: Indoor Thermometer and Hygrometer Plus
SwitchBot

Model: W2301500

Radio frequency and power: BLE: 2402 MHz to 2480 MHz (3.75

The full text of the declaration of conformity can be found on the website at:

<https://files.innpro.pl/SwitchBot>

The product complies with the European Parliament and Council Directive 2014/53 of April 16, 2014, on the harmonization of the laws of the Member States relating to the making available on the market of radio equipment and repealing Directive 1999/5

Environmental Protection

Waste electrical and electronic equipment marked in accordance with the European Union directive must not be disposed of with other municipal waste. It is subject to selective collection and recycling at designated points. By ensuring its disposal, you prevent potential negative consequences for the natural environment and human health. The waste system complies with local environmental protection regulations regarding waste disposal. Detailed information can be obtained from the municipal office, waste management facility, or the store where the product was purchased.

The product meets the requirements of the so-called New Approach directives of the European Union (EU) regarding safety, health protection, and environmental protection, specifying hazards that should be detected and eliminated.
