

Telesin ND64 Filter for DJI Osmo Action 5 Pro / 4 / 3

User Manual

Description:

The Telesin ND64 filter is specifically designed for DJI Osmo Action 5 Pro, 4, and 3 cameras. It reduces the amount of light reaching the sensor by up to 6 EV stops, enabling motion blur effects and smoother recordings in bright lighting conditions. This allows for the creation of more professional shots with enhanced depth and improved motion rendering, particularly when filming in full sunlight or with long exposure times.

Specifications:
