Environmental Protection

Electronic waste marked in accordance with the European Union directive must not be disposed of together with other municipal waste. It is subject to separate collection and recycling at designated locations. By ensuring its proper disposal, you prevent potential negative consequences for the environment and human health. The collection system for used devices complies with local environmental protection regulations for waste disposal.

Detailed information on this topic can be obtained at the municipal office, at the processing plant, or at the store where the product was purchased.

The product meets the requirements of the so-called new approach directives of the European Union (EU) regarding safety of use, health protection, and environmental protection, which specify hazards that need to be identified and eliminated.
