User Manual

Telesin Suction Mount for DJI Osmo Action 3/4/5 Pro

Description

The Telesin mount for DJI Osmo Action 3, 4, and 5 Pro is a professional mounting solution designed for recording in motion. The construction utilizes a large, reinforced suction cup with a load capacity of up to 10 kg, allowing the camera to be used on smooth surfaces such as glass or vehicle bodies. The product provides full control over the frame thanks to adjustments in multiple planes, and the quick installation and versatility of applications make it a versatile tool for filmmakers working in dynamic conditions.

Intended Use

For safety and certification reasons, the product must not be modified or altered in any way. Using the product for purposes other than those described may result in damage to the product. Furthermore, improper use may pose hazards. Please read the user manual carefully and keep it for future reference. It is essential to read and follow the safety instructions contained in the manual.

1. The product is not a toy. Keep it out of reach of children and pets.
2. Protect the product from extreme temperatures, direct sunlight, strong vibrations, high humidity, moisture, flammable gases, vapors, and solvents.
3. Do not expose the product to mechanical loads.
4. If safe operation is no longer possible (the product is damaged, not functioning correctly), cease use and secure the product against reuse.
5. Handle the product with care. Shocks, impacts, or dropping the product may cause damage.
6. If there are any doubts regarding operation or safety, consult a qualified professional.
7. If you have any questions that are not answered in this manual, please contact our customer service office (email: hurt@innpro.pl, website: <https://innpro.pl/>) or another specialist.
