User Manual

CPL/ND8/ND16/ND32 Filter Set Telesin for DJI Osmo Action 6 (4 pcs.)

Description

The Telesin S5-FLT-40 set is designed for users of the DJI Osmo Action 6 camera who expect stable, repeatable image quality in various lighting conditions. It includes four filters with different functions (CPL, ND8, ND16, and ND32) that allow for exposure control or elimination of unwanted reflections. Their construction combines SCHOTT optical glass, an aluminum frame, and a silicone shock-absorbing pad, ensuring excellent results and durability during outdoor use.

Intended Use

For safety and certification reasons, the product must not be modified or altered in any way. Using the product for purposes other than those described may result in damage to the product. Additionally, improper use may pose hazards. Please read the user manual carefully and keep it for future reference. It is essential to read and follow the safety instructions contained in the manual.

1. The product is not a toy. Keep it out of reach of children and pets.
2. Protect the product from extreme temperatures, direct sunlight, strong vibrations, high humidity, moisture, flammable gases, vapors, and solvents.
3. Do not expose the product to mechanical loads.
4. If safe operation is no longer possible (the product is damaged, not functioning correctly), discontinue use and secure the product to prevent reuse.
5. Handle the product with care. Shocks, impacts, or dropping the product may cause damage.
6. If there are any doubts regarding operation or safety, consult a qualified professional.
7. If you have any questions not answered in this manual, please contact our customer service office (email: hurt@innpro.pl, website: <https://innpro.pl/>) or another specialist.
