

User Manual

TOMTOC ArmorCase-G25 NS2 Controller Case (Black)

Description

The ArmorCase-G25 by tomtoc is a durable protective case designed specifically for the Nintendo Switch 2 Pro Controller. Its compact design is up to 40% smaller than standard cases, so it takes up very little space in a backpack, bag, or suitcase. The hard shell effectively protects the controller from pressure, impacts, and shocks, and the MIL-STD-810H-516.8 military certification confirms its high drop resistance. Additionally, open access to the charging port allows you to conveniently charge the controller without having to remove the case.

Intended Use

For safety and certification reasons, the product must not be modified or altered in any way. Using the product for purposes other than those described may result in damage to the product. Improper use may also cause hazards. Read the user manual carefully and keep it for future reference. Always read and follow the safety instructions contained in this manual.

1. The product is not a toy. Keep it out of reach of children and animals.
2. Protect the product from extreme temperatures, direct sunlight, strong vibrations, high humidity, moisture, flammable gases, vapours and solvents.
3. Do not subject the product to mechanical stress.
4. If safe operation is no longer possible (the product is damaged or does not work properly), stop using it and secure it against unintended use.
5. Handle the product with care. Shocks, impacts or dropping the product may cause damage.
6. If in doubt about the operation or safety of the product, consult a qualified specialist.
7. If you have any questions that are not answered in this manual, please contact our customer service (e-mail: hurt@innpro.pl, website: <https://innpro.pl/>) or another specialist.

Specification
