- Dimensions of the packaging (W x H x D): 330 x 445 x 190 mm

- Weight of the packaging: 5.7 kg

Energy consumption guide and wireless connection configuration

1. Energy consumption information

The device complies with European Commission (EU) Regulation 2023/826.

- Off: not applicable

- Standby mode (when all wireless connections are turned off): < 0.5 W

- Network standby mode for the soundbar: < 2.0 W

*The time for the device to enter standby mode can be set in the app. Changing this setting may result in a significant increase in energy consumption, which negatively impacts the environment.

2. The period after which the energy management function automatically switches the device to:

Off: Not applicable

Standby mode: When the soundbar is in a resting state (not playing or being operated) and is not connected either via Bluetooth or the app.

Switching to standby mode after 15 minutes.

Scan the QR code for safety information

Standby mode: When Bluetooth or the app is connected.

After 15 minutes of inactivity in operational mode, the device will switch to network standby mode.

3. If the device has wireless connections:

How to activate wireless connections:

- Properly configure the device;
- Switch to wireless mode (Bluetooth);
- Connect to powered devices (e.g., players/gaming consoles/STB decoders/phones/tablets/computers).

How to disable wireless connections:

- Switch to a channel other than Bluetooth;
- Then press and hold on the remote for more than 3 seconds.

To obtain the above content in other languages (DE, FR, ES, IT, PT, NL, PL, SV, TR, JP, CN, TC, KO, AR), scan the QR code.

DISPOSAL INSTRUCTIONS

(1) This device must not cause interference. This symbol placed on the product or its packaging means that this product should not be disposed of with other household waste after its usage period.

To prevent any potential harmful effects on the environment or human health due to uncontrolled waste disposal, separate this product from other types of waste and recycle it responsibly to promote the sustainable reuse of material resources.

(2) This device must accept any interference, including interference that may cause undesired operation of the device. The device meets the requirements for exemption from routine evaluation limits specified in section 2.5 of RSS 102 and compliance with RSS-102 regarding exposure to radio waves. Users can obtain Canadian information on radio wave exposure and compliance with standards.

This transmitter must not be co-located or operating in conjunction with any other antenna or transmitter.

operate in conjunction with any other antenna or transmitter. Discarded electrical and electronic equipment This device should be installed and operated at

Home users should contact the seller from whom they purchased this product, or the local office for detailed information on where and how to safely recycle this product in an environmentally friendly manner. Business users should contact their suppliers and check

the terms of the purchase agreement. The product should not be mixed with other commercial waste for disposal. Description of wireless function:

The right rear surround column is equipped with a wireless signal reception module, allowing audio signals to be received from the main device for playback. WIRELESS FREQUENCY RANGE AND WIRELESS OUTPUT POWER: This device only supports wireless signal reception and cannot transmit or relay signals. Frequency: 2.402 GHz-2.48 GHz The subwoofer in the system is intended for wired connection and has no capability to transmit or receive wireless signals. THE DEVICE IS FCC COMPLIANT The remote control uses infrared (IR) technology to control devices and does not support any other transmission or reception functions for wireless signals. Any changes or modifications not expressly approved by the party responsible for compliance may result in the user's authority to operate the equipment being voided. WARNING CA: May expose you to BPA, a substance known to cause cancer, and BPA, a substance toxic to reproduction. See www.P65Warnings.ca.gov

This device complies with part 15 of the FCC rules. Operation of the device is subject to the following two conditions: (1) The device may not cause harmful interference. (2) The device must accept any interference received, including interference that may cause undesired operation. CE WARNINGS

NOTE: This device has been tested and found to comply with the limits for Class B digital devices, pursuant to part 15 of the FCC rules. These limits are designed to provide reasonable protection against harmful interference in residential

This transmitter must not be placed in the same location or operate in conjunction with any other antenna or transmitter.

ISED WARNINGS

This device contains transmitter(s) / receiver(s) exempt from the requirement to obtain a license, which comply with the RSS system exempt from the requirement to obtain a license, developed by the Canadian Department of Innovation, Science and Economic Development. The operation of the device is subject to the following two conditions:

Warnings and Safety Information

All information regarding the operation of the device can be found in the user manual.

Before you start using it,

familiarize yourself with its content and follow the instructions contained therein.

Before use, also familiarize yourself with the following information:

Usage Warnings

1. Speaker safety:

- Avoid exposing the speaker to moisture, rain, or liquids – unless the product has declared water resistance (e.g., IPX).
- Do not use the speaker near open flames or high-temperature sources, such as heaters.

2. Risk of electromagnetic interference (EMC):

- The Bluetooth function may cause interference with the operation of medical devices, such as pacemakers.

Maintain a safe distance from such devices.

- Avoid using the speaker near other electronic devices that may be susceptible to interference.

3. Child safety:

- The product is not a toy. Keep the speaker and its accessories (e.g., power cables) out of reach of children under 8 years of age.
- Do not allow children to charge the device on their own.

4. Battery and charging safety:

- Use only original chargers or cables provided by the manufacturer.
- Do not charge the speaker near flammable materials.
- If you notice any damage to the battery or excessive heating of the device, immediately cease use and contact service.

Information on Proper Use

1. Bluetooth Setup:

- Before first use, ensure that the speaker has been paired with the device according to the user manual.
- The Bluetooth function works best at a distance of up to 10 meters without obstacles.
- Avoid connecting to incompatible or unsecured devices.

2. Sound Recommendations:

- To protect your hearing, avoid listening to music at maximum volume for extended

periods.

- Do not place the speaker in locations where vibrations may cause it to fall.

3. Storage and Maintenance:

- Store the speaker in a dry place at a temperature between 0°C and 40°C.
- Regularly clean the casing with a soft, dry cloth. Do not use chemicals or damp materials if the device is not waterproof.

Additional Precautions

- Software Updates:
 - Regularly check for software updates for the device to improve performance and Bluetooth security.
 - Download software only from the manufacturer's website.
- Privacy Security:
 - When using the Bluetooth function, ensure that the device is visible only to your paired devices to avoid unauthorized access.
