General specifications: IMPORTANT SAFETY INSTRUCTIONS:

Model: U2623 1. Please read and keep this manual. Audio system: 7.1 channels Follow all warnings and operate the device according to

Power supply: DC 18 V 3 A (soundbar) the instructions. Speakers: 2.25'» x 3 (soundbar) + 2.25«' x 4 (surround) + 6.5" (subwoofer) 2. Do not use the device near water sources, in

Standby power: ≤ 0.5 W humid environments, or during rain. Avoid
spilling liquids or placing items containing liquids (e.g., vases) on the device. Operating
temperature: -10°C - 45°C Audio specifications 3. Clean only with a dry cloth. Do not use
? Frequency response: 45 Hz – 18 kHz (-6 dB) liquid cleaning agents. ? Audio inputs: HDMI,
optical, Bluetooth, AUX, and USB Dimensions 4. Do not block ventilation openings or install
the device in a confined space. Ensure
adequate ventilation and install the device according to
? Soundbar dimensions (W x H x D): the manufacturer's instructions. 400 x 70 x 90 mm 5. Do
not install the device near heat sources, such
? Subwoofer dimensions (W x H x D): as radiators, stoves, or amplifiers. Do not cover
218 x 317 x 264 mm ventilation openings with items such as newspapers
? Surround speaker dimensions (W x H x D): or curtains. 135 x 70 x 90 mm 6. Use only
equipment, stands, or accessories
? Packaging dimensions (W x H x D): specified by the manufacturer.

When using the device on wheels, you must move carefully to avoid tipping over.

- Package weight: 10.51 kg

Energy consumption and wireless connection configuration guide

7. Protect the power cord from being pinched, stepped on, or bent, especially at plugs,
sockets, and the device's exit.

1. Energy consumption information

8. Do not modify the polarized or grounding plug. The device complies with European
Commission Regulation (EU) 2023/826.

- Off: not applicable

- Standby mode (when all wireless connections are turned off): < 0.5 W

- Network standby mode for the soundbar: < 2.0 W

*The device's transition time to standby mode can be set in the app. Changing this setting
may cause a significant increase in energy consumption, which negatively impacts the
environment.

2. The period after which the energy management function automatically switches the
device to:

Off Not applicable

Standby mode When the soundbar is in a resting state (not playing or operating) and is not
connected via Bluetooth or the app.

Standby mode When Bluetooth or the app is connected.

After 15 minutes of inactivity in operational mode, the device will switch to network standby mode.

3. If the device has wireless network connections:

How to activate wireless connections:

- Properly configure the device;
- Switch to wireless mode (Bluetooth);

Scan the QR code for safety information

- Connect to powered devices (e.g., players/gaming consoles/STB decoders/phones/tablets/computers).

How to disable wireless connections:

- Switch to a channel other than Bluetooth;
- Then press and hold the button on the remote for more than 3 seconds.

Please scan the QR code to obtain the above content in other languages (DE, FR, ES, IT, PT, NL, PL, SV, TR, JP, CN, TC, KO, AR)

(2) This device must accept any interference, including interference that may cause undesired operation of the device.

DISPOSAL INSTRUCTIONS

This symbol on the product or its packaging indicates that this product should not be disposed of with other household waste after its useful life. To prevent potential harm to the environment or human health from uncontrolled waste disposal, this product must be separated from other types of waste and recycled responsibly to promote the sustainable reuse of material resources.

The device meets the exemption requirements from routine limits set out in section 2.5 RSS 102 and complies with RSS-102 regarding radio wave exposure. Users can obtain Canadian information on radio wave exposure and compliance.

Used electrical and electronic equipment

Home users should contact the seller from whom they purchased this product, or the local office, to obtain detailed information on where and how to return this product for recycling in an environmentally safe manner. Business users should contact their suppliers and check the terms of the purchase agreement. The product should not be mixed with other commercial waste for disposal.

Description of wireless functionality:

WIRELESS FREQUENCY RANGE AND WIRELESS OUTPUT POWER:

Frequency: 2.402 GHz–2.48 GHz

Maximum transmit power (applicable only in the EU): 10 dBm

FCC COMPLIANCE

Any changes or modifications not expressly approved by the party responsible for compliance may void the user's authority to operate the equipment. This device complies with part 15 of the FCC rules. Operation of the device is subject to the following two conditions:

- (1) The device may not cause harmful interference.
- (2) The device must accept any interference received, including interference that may cause undesired operation.

WARNING CA: This product can expose you to BPA, a chemical known to the State of California to cause cancer, and BPA, a chemical known to the State of California to be toxic for reproductive health. See www.P65Warnings.ca.gov

CE WARNINGS

1) Do not install this device in an enclosed or built-in space, such as a bookshelf or similar furniture, and ensure good ventilation. Ventilation should not be impeded by covering ventilation openings with items such as newspapers, tablecloths, curtains, etc.

However, there is no guarantee that interference will not occur in a particular installation. If this device does cause harmful interference to radio or television reception, which can be determined by turning the device off and on, the user should try to correct the interference by one or more of the following measures:

- Change the orientation or position of the receiving antenna.
- Increase the distance between the device and the receiver.
- Connect the device to a power outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

2) WARNING: To reduce the risk of fire or electric shock, do not expose this device to rain or moisture. The device should not be exposed to dripping or splashing water, and objects filled with liquids, such as vases, should not be placed on the device.

3) WARNING: The adapter plug serves as a disconnect device and should remain readily accessible.

4) Frequency: 2.402 GHz-2.48 GHz

5) Maximum transmit power: 10 dBm

This device complies with FCC radiation exposure limits set forth for uncontrolled environments. This device should be installed and operated with a minimum distance of 20 cm between the radiator and the user's body.

This transmitter must not be placed or operated in conjunction with any other antenna or transmitter. ISED WARNINGS

This device contains transmitter(s)/receiver(s) exempt from the licensing requirement, compliant with the RSS(s) requirements of Innovation, Science and Economic Development Canada. Operation of the device is subject to the following two conditions:

(1) The device must not cause interference. EU Declaration of Conformity
