Machine translation from Polski. In case of doubt the manufacturer's original document prevails.

Correction frame for XR Viture Luma glasses (size M)

User Manual

Description

The corrective lens frame for VITURE Luma XR glasses has been designed for users who require stronger vision correction than the standard settings of the device offer. It allows for the installation of individually tailored corrective lenses, enabling even those with high myopia or astigmatism to fully enjoy the capabilities of VITURE glasses. The frame version is available in Large size (IPD 68.0 ± 6.0 mm), ensuring a comfortable fit for most users and maintaining the proper image alignment in the glasses.

Intended Use

For safety and certification reasons, the product must not be modified or altered in any way. Using the product for purposes other than those described may result in damage to the product. Additionally, improper use may pose hazards. Please read the user manual carefully and keep it for future reference. It is important to read and follow the safety instructions contained in the manual.

1. The product is not a toy. Keep it out of reach of children and pets.
2. Protect the product from extreme temperatures, direct sunlight, strong vibrations, high humidity, moisture, flammable gases, vapors, and solvents.
3. Do not expose the product to mechanical stress.
4. If safe operation is no longer possible (the product is damaged, not functioning correctly), discontinue use and secure the product against reuse.
5. Handle the product with care. Shocks, impacts, or dropping the product may cause damage.
6. If there are any doubts regarding operation or safety, consult a qualified professional.
7. If you have any questions not answered in this manual, please contact our customer service office (email: hurt@innpro.pl, website: <https://innpro.pl/>) or another specialist.
