Installation steps

Resetting the device

Press and hold the power button for 5 seconds within a minute of turning on the device.

When the device starts to glow blue, the factory reset will begin. When the indicator changes color to rainbow, it means that the device has been successfully reset.

* After connecting the device to a new phone, the device must be reset.

1. Wipe the surface to ensure it is clean and dry, then attach the lighting strip to the mounting surface and press it firmly.

Pairing the device with the Yeelight Fun app

1. Download the Yeelight Fun app from the app store (iOS devices) or Google Play (Android devices).
2. Remove the protective film from the control box and stick it, placing the control box close to the music source for optimal sound effects.
3. Turn on the power of the lighting strip.
4. Make sure the device has been successfully powered on and reset.

5. Turn on Bluetooth on your smartphone.
6. Open the app and follow the on-screen instructions to complete the pairing.

Warnings and precautions

Description of button functions

For indoor use only. Do not use the lighting strip when it is covered or recessed into a surface.

Turn on/off the light

Do not bend the LED inside the lighting strip more than 90 degrees to avoid damaging the product.

Press to switch lighting modes

Do not open or cut the lighting strip.

Enter music mode. Press to switch music mode.

Do not connect parts of this lighting strip with parts of lighting strips from other manufacturers. Connections should only be made using the supplied connectors. Any open ends must be sealed before use.

Specifications

The LED lighting strip should only be used with the supplied LED controller.

Model: YLYDD-0038

Power factor: 18 W

Rated input: 24 V 0.5 A

Rated input (with adapter):

To prevent premature product failure, the product should only be used in environments with a temperature range of 14 to 77 °F (-10 to 25 °C).

Operating temperature: -10°C to 25°C

Rated input (with adapter):

Operating frequency: 2402-2480 MHz

The product is not waterproof; caution should be exercised during installation and use.

Maximum output power: 10 dBm

Do not allow children to install the lighting strip independently.

Size: 6 m/19.68 ft

Before turning on the power, the lighting strip must be unrolled.

The light source of this fixture is not replaceable; when the light source reaches the end of its lifespan, the entire fixture must be replaced.
